## INDEPENDENT AUDITORS' REPORT

**Mayor and Board of Commissioners  
Town of Emmitsburg, Maryland**

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Emmitsburg, Maryland, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of Emmitsburg, Maryland's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

**Town of Emmitsburg, Maryland**  
**Independent Auditors' Report**  
**Page 2**

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund, of the Town of Emmitsburg, Maryland, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension schedules on pages 3 – 8 and 39 – 46 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2017, on our consideration of the Town of Emmitsburg, Maryland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Emmitsburg, Maryland's internal control over financial reporting and compliance.

## TOWN OF EMMITSBURG, MARYLAND

### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Emmitsburg, Maryland, we offer readers of the Town of Emmitsburg's financial statements this narrative overview and analysis of the financial activities of the Town of Emmitsburg as of and for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with all other information furnished in this package.

#### FINANCIAL HIGHLIGHTS:

1. The Town's government-wide net position decreased \$201,430 in fiscal year 2017 as compared to a decrease of \$28,615 in fiscal year 2016. This was primarily due to the additional outlays associated with the Town's Waste Water Treatment Plant, which was completed in June 2016, resulting in a full year's depreciation in fiscal year 2017.

2. The assets of the Town of Emmitsburg exceeded its liabilities and as of June 30, 2017 as below noted:

Governmental Activities ..... \$5,134,747 (up \$266,866 from last year)

Business-Type Activities – Enterprise Funds .....\$27,636,071 (down \$468,296 from last year):  
primarily due to increased accumulated depreciation at fiscal year end.

Of the total net position, \$5,350,633 is unrestricted, \$1,335,480 is restricted and \$26,084,705 is net investment in capital assets.

## Management's Discussion and Analysis

3. Total governmental and business-type assets were \$6,101,460 and \$34,741,576, respectively. Capital assets, net of accumulated depreciation, for governmental and business-type activities were \$3,645,403 and \$29,346,180, respectively.
4. Total deferred outflows of resources for governmental and business-type activities were \$75,936 and \$54,989, respectively.
5. Total governmental and business-type liabilities were \$912,502 and \$7,118,745, respectively. Of these amounts, \$7,601,821 are long-term liabilities.
6. Total deferred inflows of resources for governmental and business-type activities were \$130,147 and \$41,749, respectively.
7. As of June 30, 2017, the Town of Emmitsburg's governmental funds reported a combined ending fund balance of \$2,156,595 (up \$197,649 from last year). Of that amount, \$1,398,584 is unassigned or 64.9% of total government fund balance.
8. As of June 30, 2017, the Town of Emmitsburg's revenues were as herein noted: Governmental Funds were \$1,914,864 (up \$118,490 or 6.6% from last year), Enterprise Funds operating revenues were \$1,399,891 (down \$29,173 or 2.0% from last year). The increase in governmental funds revenue was primarily from increased Intergovernmental revenues, increasing \$124,589 from the prior year. Decreases in water and sewer consumption during the fiscal year were responsible for the decreased business-type revenue variance.
9. As of June 30, 2017 the Town of Emmitsburg's expenditures were as herein noted: Governmental Funds were \$1,717,215 (down \$22,719 or 1.3% from last year), Enterprise Funds operating expenses were \$1,809,927 (up \$213,420 or 13.4% from last year). The governmental funds decrease is contributable to a decrease in General government and Public works expenditures. The majority of the business-type increase is contributable to the Town's Waste Water Treatment Plant capitalized in fiscal year 2016 and the resulting full year's depreciation during fiscal year 2017.

## Management's Discussion and Analysis

### OVERVIEW OF THE FINANCIAL STATEMENTS:

The discussion and analysis are intended to serve as an introduction to the Town of Emmitsburg's basic financial statements. The Town of Emmitsburg's basic financial statements are comprised of three (3) components: 1) government-wide financial statements; 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town of Emmitsburg's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town of Emmitsburg include legislative, executive, planning and zoning, public safety, garbage, streets, recreation & parks, and other charges. The major business-type activities of the Town of Emmitsburg include the water & sewer enterprise funds.

The government-wide financial statements include only the Town of Emmitsburg itself (known as the primary government).

The government-wide financial statements can be found on pages 9 – 10 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Emmitsburg can be divided into two (2) categories: governmental funds and proprietary funds.

The fund financial statements can be found on pages 11 – 17 of this report.

## Management's Discussion and Analysis

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the two.

The governmental funds financial statements can be found on pages 11 – 13 of this report.

**Proprietary funds.** The Town of Emmitsburg maintains two proprietary, or enterprise, funds. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The Town of Emmitsburg operates a Sanitary Sewer Enterprise Fund and a Water Enterprise Fund.

The proprietary funds financial statements can be found on pages 14 – 17 of this report.

**Notes to the Financial Statements.** These notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 18 – 38 of this report.

**Required supplementary information.** In addition to the basic financial statements and accompanying notes, this report also presents certain other supplementary information.

The required supplementary information can be found on pages 39 – 46 of this report.

With all of the aforementioned stated, please review the following data closely for a detailed accounting of the financial activities and assets of the Town of Emmitsburg, Maryland.

The following table summarizes revenues and expenses for the governmental activities of the Town and totals for the government overall:

### Budget Variances

In comparing the final budget amounts to the actual revenues and expenditures for the Town's General Fund, the Town's revenues were higher than the appropriated budget by \$798 or slightly above expectations. Revenues associated with Real property, Personal property, and Interest income revenues were above expectations. General Fund expenditures were under budget by \$132,773 or 8.5% below budgeted expenses. Factors contributing to lower than expected expenses were a reduction in staff, closure of the community pool, and lower than anticipated use of consulting services during the fiscal year. These items directly lowered the expenses in the Legislative, Planning & Zoning, Public Works, and Recreation & Culture departments.

## Management's Discussion and Analysis

### Budget Fiscal Year 2018

Approved fiscal year 2018 General Fund revenues budget is \$1,743,959. Budgeted General Fund expenses before transfer to CIP is \$1,525,618. General Fund budgeted transfer to CIP is \$218,341.

The real estate tax rate will remain unchanged from fiscal year 2017. The constant yield rate was determined at the same rate as 2017. Real Estate Tax revenue held steady in both fiscal years 2016 & 2017.

The Town will continue to set aside budgetary amounts in the Capital Projects Fund with an emphasis on curb, gutter, sidewalk, & road work, along with future vehicle replacement. In addition, funds for replacement of the Town Pool will be set aside in this year's budget.

Renovations for the Town of Emmitsburg Community Pool have been initiated and are anticipated to be completed in the spring of 2018. A grant of \$217,200 from the Department of Natural Resources has been acquired under the Community Parks & Playgrounds funding source. This will allow renovation for the 45 year old pool at Emmitsburg Community Park.

Construction of a Town Dog Park has begun and on schedule to be completed in the spring of 2018. The Town has initiated a dog park campaign taking donations from the public to go towards the project. Grant funds will also assist in completion of the dog park.

Construction work on the Town Square Revitalization is scheduled to be completed in the spring of 2018 and will have approximate costs of \$300,000. The Town Square costs will be partially funded by a grant with a portion to be funded by Town resources.

Water & sewer rates will remain the same as fiscal year 2017. Minimum quarterly rates for water are \$35 and \$113 for sewer for a residential household with a standard  $\frac{3}{4}$  inch meter size. These rates are based upon the minimum first 6,000 gallons. The Town of Emmitsburg's rate schedule is a tier schedule based upon the amount of gallons used each quarter. A rate schedule can be obtained upon request by contacting the Town offices.

The Town will continue to monitor the water consumption needs of its residents and businesses. The Town anticipates water & sewer infrastructure improvements to be made during the fiscal year including setting aside funds for replacement of water meters. And last, Town staff will continue to make a detailed watch of the expenses concerning operating the Waste Water Treatment Plant.

**TOWN OF EMMITSBURG, MARYLAND**  
**Notes to the Financial Statements**  
**June 30, 2017**

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Financial Reporting Entity**

The Town of Emmitsburg was incorporated in 1825 and is currently organized under the provisions of a commission form of government. The financial statements of The Town of Emmitsburg, Maryland (the Town) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in Governmental Accounting Standards Board Codification Section 2100 have been considered and there are no agencies or entities which should be presented with the Town.

The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Town follows GASB 62 in applying GASB guidance to its proprietary activities, which incorporates Financial Accounting Standards Board statements and interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989, that do not conflict with or contradict GASB pronouncements.

**Government-wide and Fund Financial Statements**

The basic financial statements include both government-wide (based on the Town as a whole) and fund financial statements. The statement of net position and the statement of activities display information about the Town as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements include the financial activities of the primary government. The statements distinguish between those activities of the Town that are governmental and those that are considered business-type activities.

**Notes to the Financial Statements (Continued)**  
**June 30, 2017**

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Government-wide and Fund Financial Statements (Continued)**

The statement of net position presents the financial condition of the governmental and business-type activities of the Town at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Town's governmental activities and for business-type activities of the Town. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Town, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the Town.

In the fund financial statements, financial transactions and accounts of the Town are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and managerial requirements.

The following is a brief description of the specific funds used by the Town for the year ended June 30, 2017:

**Governmental Fund Types**

General Fund – This fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The General Fund accounts for the normal recurring activities of the Town, (i.e., public safety, parks and recreation, public works and general government activities, etc.). These activities are funded principally by property and income taxes on individuals and businesses, and grants from other governmental units.

Capital Projects Fund – This fund accounts for the purchase, construction or renovation of major general fixed assets over an extended period of time (other than those financed by the Proprietary Funds). While capital outlay accounts are used in each function reported in the General Fund, longer-term projects, those with mixed funding or projects of a larger amount or spanning several fiscal years, are accounted for in this fund.

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Government-wide and Fund Financial Statements (Continued)**

**Proprietary Fund Types**

Enterprise Funds – The Water and Sewer Funds account for the activity of the Town’s sewage treatment plant, sewage pumping stations and collection systems, and the water distribution system.

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. This approach differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental fund.

Net position is reported as restricted when constraints placed on net position use are externally imposed by grantors or contributors.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when cash is received and when amounts to be received are both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues as available if they are collected within 60 days after year-end.

Expenditures generally are recorded when the related liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation** (Continued)

Business-type activities and all proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Budgets and Budgetary Accounting**

The budget document is a comprehensive financial plan showing all revenues and expenditures expected for the fiscal year.

The Town follows these procedures in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to May 30<sup>th</sup>, the Mayor requests the Town Manager and Town Accountant meet with the Board of Commissioners and then prepare their proposed operating budgets for the fiscal year commencing the following July 1.
2. All budget requests are compiled by the Town Manager and Town Accountant and presented to the Mayor for review together with comparative and supporting data.
3. Public hearings are advertised and conducted at the Town Hall for taxpayer comments.
4. Prior to May 30<sup>th</sup>, the Mayor formally presents the budget message to the Board of Commissioners.
5. Prior to June 30<sup>th</sup>, the budget is legally enacted through the passage of an ordinance.
6. Appropriations lapse at the end of the fiscal year.
7. During the operating year, the Board of Commissioners must approve inter-departmental budget transfers at a regularly scheduled public meeting.

**TOWN OF EMMITSBURG, MARYLAND**  
**Notes to the Financial Statements (Continued)**  
**June 30, 2017**

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Cash, Cash Equivalents, and Investments**

For purposes of the statement of cash flows, the Town considers cash on hand, demand deposits, and all highly liquid investments and debt instruments with maturities of six months or less from the date of acquisition to be cash and cash equivalents. Generally, cash resources of the individual funds are combined to form a pool. Investment income earned as a result of pooling is distributed to the appropriate funds based on the average balance of cash and investments of each fund.

**Receivables and Doubtful Accounts**

Significant receivables include amounts due from customers primarily for property taxes and utility services. These receivables are due within one year. For the year ended June 30, 2017, the Town has an allowance for doubtful property taxes of \$20,825 reported in the general fund.

**Prepaid Expenses**

Payments made to vendors for services that will benefit periods beyond June 30, 2017, are recorded as prepaid expenses. In governmental funds, reported prepaid expenses are equally offset by non-spendable fund balance amounts, which indicates that they do not constitute “available spendable resources” even though they are a component of net current assets.

**Capital Assets**

Capital assets are reported in the governmental or business-type activities column in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets purchased or acquired are recorded at cost or, if donated, at the estimated fair market value upon receipt. Depreciation of property and equipment is computed on the straight-line method for financial reporting purposes. Depreciation is provided for over the estimated useful lives of the assets.

Buildings	20 – 50 years
Land improvements	10 – 20 years
Infrastructure	20 – 50 years
Machinery and equipment	5 – 15 years

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Short-term Interfund Receivables/Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the statement of net position. Short-term interfund loans are classified as “interfund receivables/payables.”

**Compensated Absences**

It is the Town’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Employees are entitled to receive payment for all unused vacation hours and half-time pay for accrued and unused sick and personal hours upon termination. Accumulated vacation, sick, and personal leave is accrued when incurred in the government-wide and proprietary fund financial statements.

**Deferred Outflows / Inflows of Resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that period.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that period.

**Commitments and Contingent Liabilities**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although it is believed by management that such disallowances will be immaterial.

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Interfund Transactions**

Quasi-external transactions are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

**Net Position**

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of cost of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Restricted net position represents external restrictions by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law or enabling legislation.

**Fund Balance**

The Town has implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, for its governmental funds. Under GASB Statement No. 54, fund balances are required to be reported according to the following classifications:

Nonspendable fund balance – Includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid amounts, assets held for sale, and long-term receivables.

Restricted fund balance – Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).

Committed fund balance – Amounts that can only be used for specific purposes because of a formal action (resolution or ordinance) by the Town's highest level of decision-making authority, the Mayor and Board of Commissioners.

**TOWN OF EMMITSBURG, MARYLAND**  
**Notes to the Financial Statements (Continued)**  
**June 30, 2017**

**NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Fund Balance (Continued)**

Assigned fund balance – Amounts that are constrained by the Town’s intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the Board of Commissioners, or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.

Unassigned fund balance – This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When both restricted and unrestricted resources are available for use, it is the Town’s policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – in order as needed.

**Use of Estimates**

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

**NOTE 2 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS**

**Custodial Credit Risk**

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Custodial credit risk for investments exists when, in the event of the failure of the counterparty to a transaction, a government may be unable to recover the value of investment or collateral securities that are in the possession of an outside party. As of year-end, the Town’s carrying amount of deposits was \$4,676,066 the bank balance was \$4,689,512 and cash on hand was \$450.

	<u>\$ 2,172,118</u>	<u>\$ 5,003,918</u>	<u>\$ 7,176,036</u>

**Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town's policy is not explicit as to how interest rate risk is managed. The interest rate in the MLGIP fluctuates throughout the year. The applicable interest rate at June 30, 2017 was 0.94 %.

**Credit Risk**

Credit risk is defined as the risk that an issuer or other counterparts to an investment in debt securities will not fulfill its obligation.

The Town shall invest only in the following types of securities, which are authorized by the State:

- Local Government Investment Pool administered by the State Treasurer

The Town's investments have received the following ratings by Standard & Poor's: Maryland Local Government Investment Pool (MLGIP) rated AAAm.

**Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer, not applicable to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, and external investment pools or other pooled investments.

**NOTE 3**      **PROPERTY TAXES**

The Town's property taxes are levied each July 1 at rates enacted by the Board of Commissioners on the total assessed value as determined by the Maryland State Department of Assessments and Taxation.

Property taxes become delinquent on October 1. Interest accrues at 1% monthly for delinquent property taxes. Tax liens on real property are sold at public auction the second Monday in May on taxes delinquent since October 1 of the current fiscal year. Total assessable base on which levies were made for the year ended June 30, 2017 was \$174,398,426 and the property tax rate was \$0.36 per \$100 of assessed value.

**NOTE 5      UNEARNED REVENUE**

Unearned revenue arises in governmental funds when revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Unearned revenue also arises, in both governmental and proprietary funds, when resources are received by the government before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, revenue is recognized.

**NOTE 7      EMPLOYEE BENEFITS**

Cost-sharing Multiple Employer Pension Plan:

**Plan Description**

Effective July 1, 2006, all full-time employees of the Town are provided retirement benefits through the Maryland State Retirement and Pension's contributory pension system ("Pension System"). The Pension System is a defined-benefit plan and multiple employer system. The plan involves state-wide participation of employees from numerous other state and local governmental units. The system is administered by the Maryland State Retirement Agency pursuant to the Annotated Code of Maryland.

Under the Pension System, members may retire after 30 years of service or the attainment of age 62 with five years of service, age 63 with four years of service, age 64 with three years of service or age 65 or over and two years of service.

The State Retirement and Pension System of Maryland does not prepare or maintain separate actuarial reports for the participating governmental units. The Maryland State Retirement and Pension System issues a comprehensive annual financial report. The report can be obtained from the agency's offices at:

**NOTE 7      EMPLOYEE BENEFITS (Continued)**

**Funding policy**

Obligations to contribute to the plans were established under Titles 22 and 23 of the State Personnel and Pensions Article of the Maryland Code. Members of the Pension System contribute 2% of their gross employee compensation. The total contributions from the employees were as follows for the fiscal years ended June 30:

2012	\$ 13,505
2013	13,388
2014	14,087
2015	14,521
2016	14,544
2017	14,388

The Town contributed the following payments to the System, which were equal to 100% of the required contributions for the years ended June 30:

2012	\$ 61,513
2013	51,651
2014	59,732
2015	60,516
2016	54,470
2017	47,822

Total pension expense for the year ended June 30, 2017 was \$66,565; \$14,528 for governmental activities and \$52,037 for business-type activities.

**Notes to the Financial Statements (Continued)**  
**June 30, 2017**

**NOTE 7      EMPLOYEE BENEFITS (Continued)**

**Discount rate (Continued)**

A single discount rate of 7.55% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.55%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the net pension liability**

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate of 7.55%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	<b>1%</b>	<b>Current</b>	<b>1%</b>
<b>System</b>	<b>Decrease</b>	<b>Discount</b>	<b>Increase</b>
	<b>to 6.55%</b>	<b>to 7.55%</b>	<b>to 8.55%</b>
Employees Pension	\$ 875,613	\$ 659,714	\$ 477,539

**Deferred compensation plan**

The Town offers a deferred compensation plan administered by the International Town/County Management Associates (ICMA) Retirement Corporation to all full-time employees under the provisions of Internal Revenue Code Section 457. Under the terms of a 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by ICMA are held in trust for the exclusive benefit of the participants and their beneficiaries, and accordingly, are not included in the Town's financial statements.

**Notes to the Financial Statements (Continued)**  
**June 30, 2017**

**NOTE 8      GRANTS FROM GOVERNMENTAL UNITS**

Federal and state governmental units represent an important source of supplementary funding used to finance construction, maintenance, employment programs, and other activities beneficial to the community. The grants received by the Town specify the purpose for which the grant funds are to be used, and such grants are subject to audit by the granting agency or its representative if Federal expenditures for the fiscal year exceed \$750,000. The Town's federal grant expenditures were less than \$750,000; therefore, they are not subject to the Single Audit Act for fiscal year 2017.

**NOTE 9      DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES**

For the year ended June 30, 2017, the Town reported deferred outflows and inflows of resources related to the following sources:

	<b><u>Deferred Outflows of Resources</u></b>	<b><u>Deferred Inflows of Resources</u></b>
Changes of pension assumptions	\$ 83,103	\$ -
Net difference between projected and actual earnings on pension plan investments	-	20,055

**NOTE 10      RESTRICTED NET POSITION**

The Town has instituted through a local ordinance a surcharge on water and sewer connections for the purpose of funding necessary repairs and maintenance and improvements to the Town’s Water and Sewer system. In addition, the Mayor and Commissioners set-aside funds for specific projects. As of June 30, 2017, the total amount restricted is as follows:

Surcharges for improvements - Water Fund	<u>\$ 259,000</u>
Surcharges for improvements - Sewer Fund	745,500
Lagoon improvements	90,000
Other building improvements	<u>34,580</u>
	<u>\$ 870,080</u>

Net position restricted by enabling legislation represents accumulated net position attributed to revenue sources, such as taxes or fees, which are restricted for specific purposes. All new residential dwelling units are assessed a one-time fee of \$1,200 per residential dwelling unit. This impact fee is to be utilized for the acquisition, development, and rehabilitation of municipal roads, sidewalks, streets, lights, and corresponding electric service, park and recreational areas. Impact fees collected are recorded in the Capital Projects Fund. A portion of the impact fees collected is to be committed to the upgrade of the local emergency warning system and is included in restricted net position in the government-wide statement of net position.

Impact fees - not committed	\$ 188,000
Committed for emergency warning system	<u>18,400</u>
	<u>\$ 206,400</u>

**NOTE 11      RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Town’s general liability risks are financed through the Town’s participation in the Maryland Local Government Insurance Trust (MLGIT). The Town pays an annual premium to MLGIT for its general insurance coverage. The Town has coverage of \$1,000,000 for each occurrence. The annual aggregate limit is \$2,000,000 and is the most the Trust will pay under the Town’s agreement. The Town continues to carry commercial insurance for employee health and accident insurance and workers compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage, and no significant reductions in insurance coverage have occurred, in any of the past three fiscal years.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**Mayor and Board of Commissioners  
Town of Emmitsburg, Maryland**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund, of the Town of Emmitsburg, Maryland, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of Emmitsburg, Maryland's basic financial statements, and have issued our report thereon dated November 15, 2017.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town of Emmitsburg, Maryland's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Emmitsburg, Maryland's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Emmitsburg, Maryland's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**Town of Emmitsburg, Maryland**  
**Independent Auditors' Report**  
**Page 2**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town of Emmitsburg, Maryland's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
