PNW BOCES

What are some things we should consider as we continue to plan for reentry in Fall 2020?

Q1 What are some things we should consider as we continue to plan for reentry in Fall 2020?

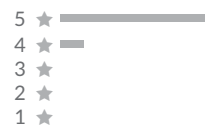

Students should stay home if sick Not to spread anything.

4.4  (14 )
Ranked #1 of 200

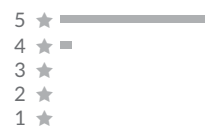

The school must take into consideration that they must ensure that the schools are properly sanitized. Also, there should be regulations to minimize The spread of the virus.

4.4  (14 )
Ranked #2 of 200

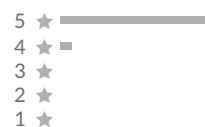

*****Some families believe Covid is a hoax or have stopped distancing months ago *****
*****Children whose parents have not made them distance or wear masks put everyone else at risk *****

4.4  (12 )
Ranked #3 of 200

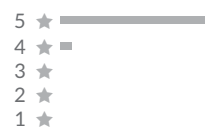

Mental Well-Being Good Mental Health is imperative to growth and learning for ALL age students.

4.4  (12 )
Ranked #4 of 200

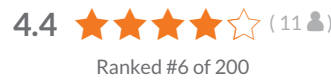

Parents and students need to be kept informed about what the school district is thinking about how school will look like in the fall It is important for all of us to have an idea and share our thoughts

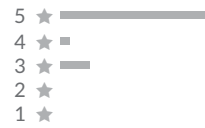

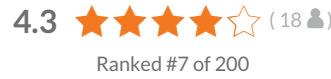

4.4  (12 )
Ranked #5 of 200

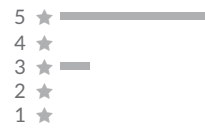

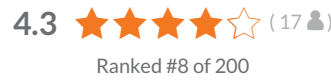

3. Students need to be accountable for their work. Without accountability not all students will be engaged.

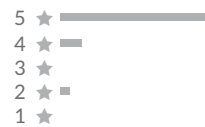

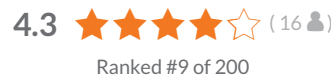

Whether or not schools can re-open, we need to make decisions about September *soon*. For households with two working parents, we need to be able to plan for September, and manage expectations/make arrangements w/ our employers.

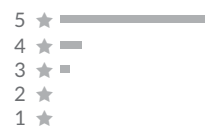

If remote learning is the only option, having live sessions w/ teachers even a few times a week to engage w/ students My kid hated online learning bc he felt like most assignments were busy work and didn't learn anything (especially ELA)

In-school class participation should continue in the Fall Students need socialization with peers and teachers in order to fully benefit and engage in learning from teachers.

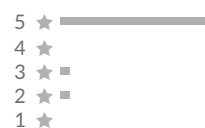

The health and safety of the student body is most important

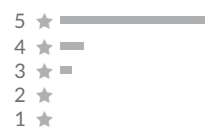

Cleaning more often, limiting clustering of kids in the hallways, cafeteria and buses

Ensure hand washing regularly for all students and staff This will eliminate spread of any contaminants

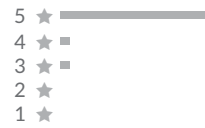

kids need structure

providing realistic, sensible, workable, and enforceable guidelines for return to the classroom Guidelines are useless if people won't or can't follow them

4.3  (15 
Ranked #14 of 200

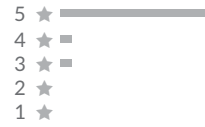

Cleaning supplies and sanitizers in every classroom Remind kids to clean hands at the start of every class

4.3  (14 
Ranked #15 of 200

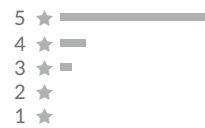

If schools do not reopen, children still need to be taught by teachers via live classroom. There are many families where both parents will be working Distance learning needs to be several hours a day with live interaction with teachers not "homeschooling".

4.3  (14 
Ranked #16 of 200

Medically fragile students should have the option of learning from home rather than attending school Persons with a weakened immune system or underlying medical condition may be more susceptible to contracting COVID and may benefit from learning@ home

4.3  (14 
Ranked #17 of 200

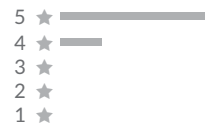

Working Parents - Those who work outside the home and well as remotely. Please consider the needs of working parents including households where all caregivers work outside the home and single parent households.

4.3  (14 
Ranked #18 of 200

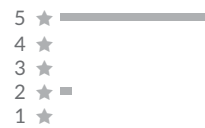

Cleanliness / Safety / Hygiene Imposing and enforcing strict hygiene and cleanliness rules, like regularly scheduled hand washing and availability of sanitizer.

4.3  (13 
Ranked #19 of 200

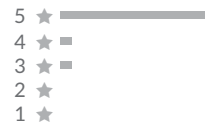

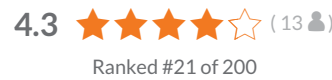

Continue to clean and disinfect areas that are frequently touched. This will help to limit the spread of any virus. However we must remember that people will get sick and we can not panic when that happens.

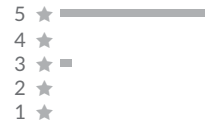

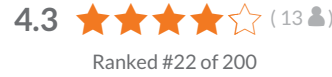

4.3  (13 
Ranked #20 of 200

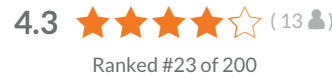

Ensure extra help available To bridge the gap due to online learning

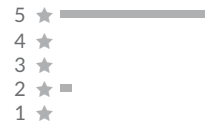

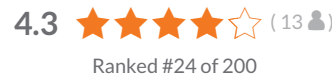

Hand sanitizer must be in every classroom

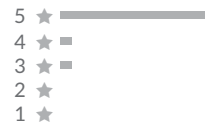

Organized and consistent communication of assignments and due dates online. Every teacher should use the same application and process. My kid had the most difficult time navigating each teacher's methodology.

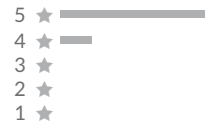

Teachers need to be in contact with their classes and teach each day and not just post assignments. Important for consistency and accountability of students.

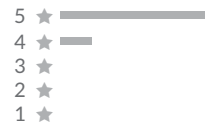

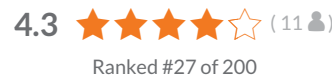

sufficient supply of hand sanitizers and soap. To ensure all kids can wash/sanitize their hands any time and any area throughout the day.

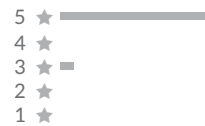

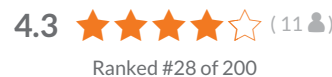

A schedule is important for students and parents. This will help provide consistency to routines.

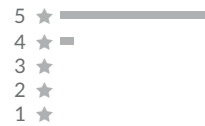

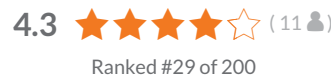

Do not separate children by the alphabet. I suggest you separate the children by grade. It is important for the seniors to stay together. That is how they bond. and best socialize. They do not bond if half of the Class isn't there.

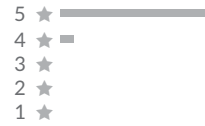

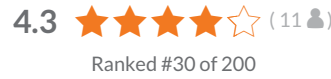

Enforcing about sick kids If kids are sick they should not be allowed on campus. It's a liability and could get our teachers/staff sick

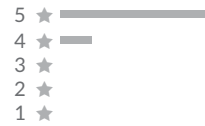

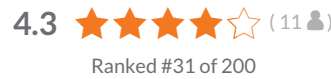

Frequent hand washing To prevent spread of germs

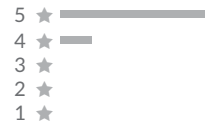

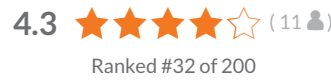

If we are required to start distance learning again, there must be a way to keep young students engaged. Students would benefit from more interactive learning opportunities if distance learning becomes necessary again.

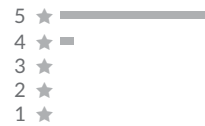

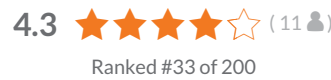

Sanitizing building/classrooms it is important to properly sanitize rooms where staff and students are spending their time.

Socially distancing on buses Temperature taken before getting on bus

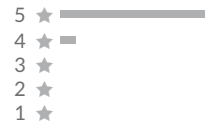

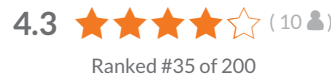

Some students, teachers and parents are going to have different opinions on re-entry. 1 size does not fit all. For those students, teachers & parents who want to re-enter, this should be an option. For those who don't, this should be 2.

students' accountability If we go on line or partially on line, on line classes/meetings should be mandatory. Video needs to be on. On line classes should be in the morning.

Amid re-entry, Covid-19 is going to spread. We need to take precautions, but we can't panic either. We need to realize that some students will catch the virus and we need to plan ahead.

Creating a schedule that will be consistent for the children and parents Routine is important for children

If someone doesn't feel well, they should remain home. If someone is running a fever, the body is fighting some kind of infection or virus and a person should take care not to spread whatever they have.

4.3  (10 )
Ranked #37 of 200

Need for PPE Masks, hand sanitizer must be available to all

4.3  (10 )
Ranked #38 of 200

Properly and effectively sanitizing the school on a daily and regular basis. keep the chance low.

4.3  (10 )
Ranked #39 of 200

Remote learning for elementary school is not as effective as in person.

4.3  (10 )
Ranked #40 of 200

Student and Staff Health and Safety Safety is paramount.

4.3  (10 )
Ranked #41 of 200

Teachers need sanitizing supplies to disinfect students' desks and shared spaces in the classroom. This stops the spread of COVID.

4.3  (10 )
Ranked #42 of 200

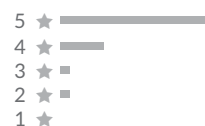

buses should be sanitized daily

4.3  (9 )
Ranked #43 of 200

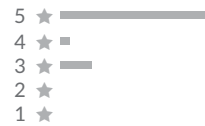

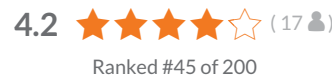

Schedules have to be known in advance if online A day's notice for a class in unacceptable. Learning at midnight about a class time is unacceptable. Structure and schedules are a must.

4.2  (19 )
Ranked #44 of 200

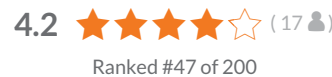

I am worried the teachers will not be able to handle a schedule that is so up in the air I hope the plan is decided soon so teachers can work on what September will look like

Regularly cleaning/sanitizing throughout the day to reduce amount of germs

Social distancing on the bus Social distancing in the classrooms and encore classes

If we do a hybrid model, we must have very clear outlines of what work is expected of the student each day, when they are working from home. The hybrid model will only work if a formalized plan for "at home" days is in place.

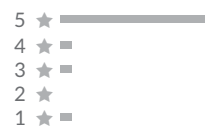

Allow kids to study from home if they have the support and can make it work Less kids in the classrooms will make it easier to manage risk to everyone.

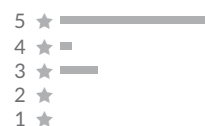

Cleanliness The school would have to be cleaned daily

Cleanliness I think it's the best way to keep anything from sreading

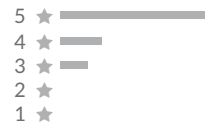

Families and students should have the option of in school, or at home synchronous learning. This may lead to a natural decrease of students in the buildings, less students to transport and help people feel more comfortable and in control

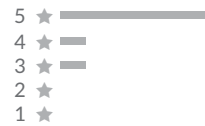

Structure If remote learning continues, working parents may not be there to assist. The teachers would need to be doing live classes & working with the kids more

4.2  (15 )
Ranked #53 of 200

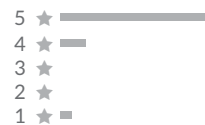

what about students that do not have access to internet or devices for online learning? all students need same access to learn

4.2  (15 )
Ranked #54 of 200

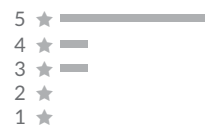

Cleanliness Best way to prevent spread of germs in general is cleanliness of the building and frequently used items. Hand washing throughout the day!

4.2  (14 )
Ranked #55 of 200

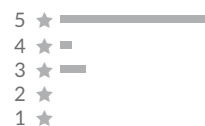

Clear plans on how new outbreaks are going to be handled. To raise people's comfort level, and provide guidance before another lockdown happens, so those impacted can plan ahead when possible.

4.2  (14 )
Ranked #56 of 200

Difficulty with mask wearing especially for younger children.

4.2  (14 )
Ranked #57 of 200

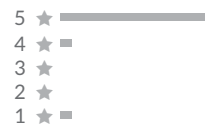

Hand sanitizer stations in every classroom. wipes for each student to clean desk as they start & end the class day sanitation reasons

4.2  (14 )
Ranked #58 of 200

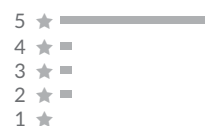

If a case of COVID arises with a student/teacher/ family member, will schools shut down again? Childcare and homeschooling again becomes an issue.

4.2  (14 )
Ranked #59 of 200

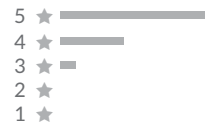

It is critical for students to return school and continue education. Early learning is critical to a child's development.

4.2  (14 )
Ranked #60 of 200

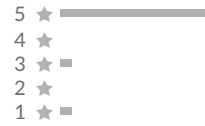

Kids need interactive face to face learning. I also work full time and cannot afford to quit my job to stay home and home school my children Being locked away at home is not healthy for the children. They need to be in school with their friends and teachers

4.2  (14 
Ranked #61 of 200

Mental health should be a top priority for these kids to get upon returning. Even before academics can continue . This has taken its toll on these children in many ways more than adults can imagine. And it is important to address these issues.

4.2  (14 
Ranked #62 of 200

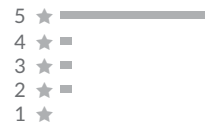

Our children's mental health is a major factor. They need to be outside of their home socializing with their peers.

4.2  (14 
Ranked #63 of 200

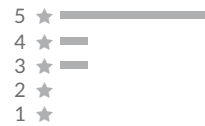

Play fall sports The importance of sports should not be overlooked. Sports is an important outlet for children. It provides mental and physical therapy.

4.2  (14 
Ranked #64 of 200

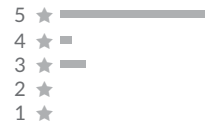

Provide 2 options statewide For parents and teachers.For those who want to send their kids to school and for those who want a remote option. Life is very valuable and so is education. Every family deserves a Reasonable choice based on their circumstances.

4.2  (14 
Ranked #65 of 200

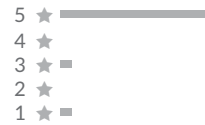

Temping on entry would be appropriate If fever is present , they must be picked up immediately.

4.2  (14 
Ranked #66 of 200

Transportation cleans the buses daily Cleaning the buses daily and having assigned seats for students on the bus

4.2  (14 
Ranked #67 of 200

What kind of screening process will be in place for students and staff entering the school if any? Will children be turned away if they fail the building entry screening process? If parents are unavailable to come get their child?

4.2  (14 )
Ranked #68 of 200

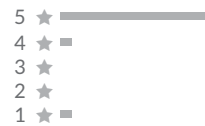

Cleaning rooms often

4.2  (13 )
Ranked #69 of 200

Distance learning was not learning but doing work!!! My child fell far behind due to not actually being taught !

4.2  (13 )
Ranked #70 of 200

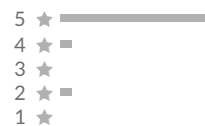

If homeschooling is necessary, teachers of younger grades will have to do what they can to reduce the burden on working parents. It takes a huge amount of time (for parents) to photograph, upload, and share work. Parents are also logging kids into many different systems each day

4.2  (13 )
Ranked #71 of 200

Masks put hard of hearing students at disadvantage Having hearing loss makes you rely, even subconsciously, on lip reading, which is impossible in masks without panels.

4.2  (13 )
Ranked #72 of 200

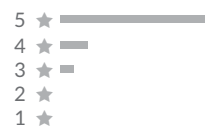

PPE's - schools should supply them for teachers and students (or give a way to purchase to all be on the same page) Districts should have all staff and families on the same page of what is expected and how it will work. Equipment should have a consistency.

4.2  (13 )
Ranked #73 of 200

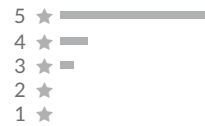

Plan in place in case there is a resurgence or second wave We will be able to handle it better if we are prepared this time

4.2  (13 )
Ranked #74 of 200

Respectfully, I not want my child cleaning anything. That seems like a health hazard. Their job is to learn. The custodians have the proper cleaning products and equipment (mask, gloves), and that is a part of their job description.

4.2  (13 )
Ranked #75 of 200

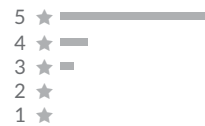

Safety of all students and staff

4.2  (13 )
Ranked #76 of 200

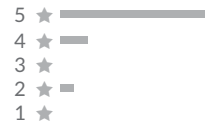

Sanitization Schools should be thoroughly cleaned and sanitized after every school day. All Surfaces.

4.2  (13 )
Ranked #77 of 200

The health and safety of the students as well as all the school staff. I am a teacher and I know there is so much to consider to open safely.

4.2  (13 )
Ranked #78 of 200

All expectations need to be clearly outlined.

4.2  (12 )
Ranked #79 of 200

All school facilities, specially classrooms, bathroom, labs, libraries should be disinfected every day. Ensure cleanliness everyday.

4.2  (12 )
Ranked #80 of 200

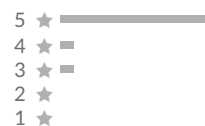

Complete absence of guidelines for workloads. Some teachers gave assignments with five questions, some gave twenty page labs with fifty questions to be answered after watching hour long videos.

4.2  (12 )
Ranked #81 of 200

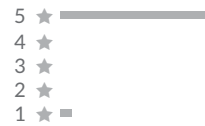

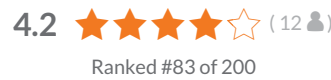

Daily sanitizing of classrooms and facilities
Keep the building free from germs

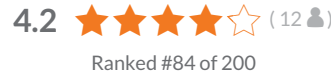

4.2  (12 )
Ranked #82 of 200

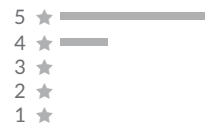

Even though we don't know for sure how effective masks are, 100% compliance of students and staff will be necessary. This cannot turn into a political debate. Can we call it the Just In Case method?

HEPA blue light air purifiers installed (or used) in each area where students & staff will be. (Including buses.)

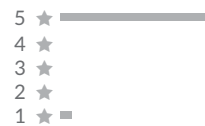

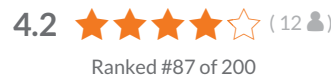

Having one unified platform would be very helpful. Also if the teachers all posted assignments/HW by the same day/time to one platform it would help. We noticed that having to locate assignments on multiple platforms, and check emails multiple times took time away from the work.

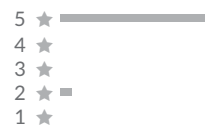

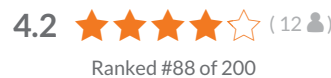

How employees will arrange childcare if they're own child's school is on a different schedule (and if that schedule suddenly changes due to outbreaks)

If kids feel sick you should make them stay home and not force them to go to school

If students need to work remotely from home, either full-time or part-time, we need to make sure that everyone has a working device and Internet. We did a pretty good job with this in the spring, but many K-1 students were scrambling for working devices. Schools should provide ipads if needed.

If there is online learning in the fall there needs to be live instruction. The children need to have a more structured day that more closely resembles their "in" school day

If you are going to separate the kids in half please do a week on and a week off. Or at least come up with a few choices and send out a questionnaire I think it's important to give the parents some input.

4.2  (12 
Ranked #90 of 200

Parents are not teachers. We can not teacher our children the same way a professional can. The children are already at a disadvantage due to the closing in March. They will be further behind the longer this goes on.

4.2  (12 
Ranked #91 of 200

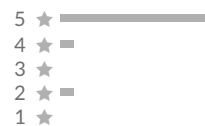

Students MUST earn their grades as they would in person. Their participation waned after they learned that their accountability was limited. We must keep them accountable if we expect them to stay motivated.

4.2  (12 
Ranked #92 of 200

Students who have to stay home should have access to the class lecture via video. No one misses lectures and classes.

4.2  (12 
Ranked #93 of 200

Will schools limit parents, vendors and other non school district employees from entering the buildings. Less exposure to employees and students from being exposed to COVID-19.

4.2  (12 
Ranked #94 of 200

regents & AP level work should be aligned across the region ensuring that students in our region receive the same curriculum whether in school or out when speaking to parents in surrounding districts the amount of assigned work varied greatly from useful & focused to nonsense and unnecessary

4.2  (12 
Ranked #95 of 200

Classroom supplies ie.hand sanitizer, gloves/masks should be supplied by the school so teachers don't have to pay for this since its essential To keep our kids and teachers safe

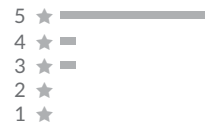

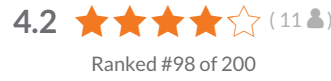

4.2  (11 
Ranked #96 of 200

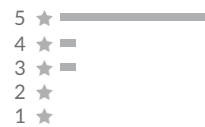

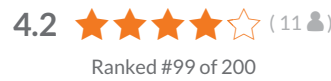

Consistent school schedule To allow parents steady logistics

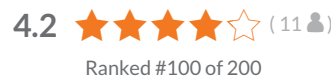

Hand sanitizer in every classroom that MUST be used upon entry and exiting the classroom. Lessen the spread of the virus on surfaces.

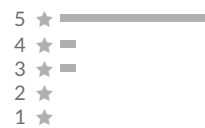

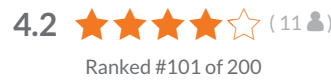

If students and staff are required to wear masks all day and sanitize their hands throughout the day, then districts need to have plenty of supplies. Teachers spend too much of their own money on teaching materials. They cannot provide PPE for students as well.

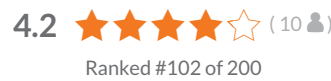

Important to have classroom interaction. If not in person then teachers should be doing google meets for class. Very few teachers did this in spring It helped keep my kids on a schedule and accountable for class work. I feel this is VERY important for online instruction.

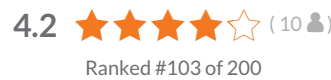

Regular testing, and very strict enforcement of staying home when sick for everyone Hand washing frequently for all We all must follow hygiene And health routines to ensure everyone's safety

A safe environment to limit spread

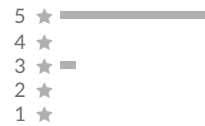

Additional school nurses to help monitor for evidence of covid One nurse per building is not enough coverage for the population of each building.

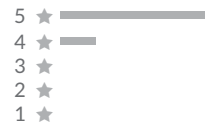

Cleaning and sterilization To prevent spread of any illness

4.2  (10 
Ranked #104 of 200

Communication How will we be notified if there is a case of covid-19 in my kids schools? What steps will be taken, school closures, more rigid guidelines, etc.?

4.2  (10 
Ranked #105 of 200

Live synchronous instruction that is required In the event that students cannot all be in school at the same time, they must be able to participate actively in class from home.

4.2  (10 
Ranked #106 of 200

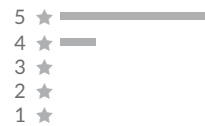

Placing hand sanitizer stations throughout hallways, classrooms & common areas. I think students will be more prone to using it if it's readily available.

4.2  (10 
Ranked #107 of 200

Purell stations in every classroom. Everyone washes their hands as you leave the classroom.

4.2  (10 
Ranked #108 of 200

Sanitation in the building To help children stay healthy and safe from viruses

4.2  (10 
Ranked #109 of 200

The safety of the children/staff/administration we do not want to spread this virus

4.2  (10 
Ranked #110 of 200

Transportation is a logistical nightmare Not screening children *before* getting on the bus, makes exposure w/in that timeframe/enclosed space/ to shared droplets is exponential

4.2  (10 
Ranked #111 of 200

if we're relying on remote learning on some level, there needs to be a structured day - i.e. students starting class at the same time each day. routine routine routine

4.2  (10 )
Ranked #112 of 200

Communication Keeping community informed

4.2  (9 )
Ranked #113 of 200

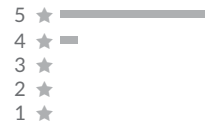

HEPA air purifier system to be installed in all schools and classrooms Clean air must circulate to prevent the spread of covid and also to help with breathing with masks in place for long durations

4.2  (9 )
Ranked #114 of 200

How will the buses work? How will arrival at school work?

4.2  (9 )
Ranked #115 of 200

Hygiene Pretty obvious - stringent cleaning is vital to keep kids & their teachers safe in school.

4.2  (9 )
Ranked #116 of 200

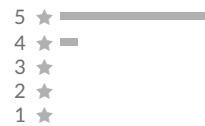

Please consider that many parents in the district will be returning to work outside of the home. Any reentry plan should provide consistency so that families can appropriately plan for the circumstances.

4.2  (9 )
Ranked #117 of 200

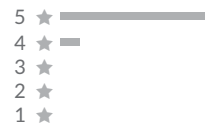

distance learning is next to impossible when both parents work full time it is hard to get home at 6 and expect kids to start schoolwork

4.2  (9 )
Ranked #118 of 200

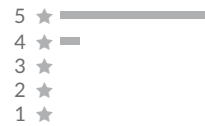

Disinfecting routines for the schools in shared spaces.

4.2  (8 )
Ranked #119 of 200

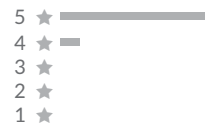

Hardware needs to be provided to all students so that everyone has the same access to distance learning. Districts must also work with ISPs Districts need to make sure disadvantaged students have access by providing computers and working with internet providers to ensure connectivity

4.2  (8 )
Ranked #120 of 200

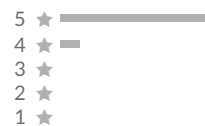

Have you updated all of the air filtration systems in schools? To reduce the spread of COVID-19

4.2  (8 )
Ranked #121 of 200

How are the teachers/school administrators working on lessons learned from this past experience? 1 child had the most wonderful teacher who put in 100% effort into distance learning. 1 teacher, unfortunately was barely accessible and ill prepared

4.2  (8 )
Ranked #122 of 200

I am in favor of live instruction through distance learning as long as a clearly defined schedule is put in place. As in school with bell schedules, students need a predictable, consistent schedule so that they are able to schedule their time most effectively.

4.2  (8 )
Ranked #123 of 200

IF virtual learning, teachers should be in classrooms and have tech support available We can't expect them to play the role of an IT Dept

4.2  (8 )
Ranked #124 of 200

If a hybrid system is determined, virtual portion should be live classes - not teachers posting assignments and students teaching themselves This is not how students stay engaged in the subject nor do they learn nor retain anything.

4.2  (8 )
Ranked #125 of 200

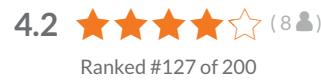

Keep lines of communication open between home and school. This is important bc a strong home school connection is need for success.

4.2  (8 )
Ranked #126 of 200

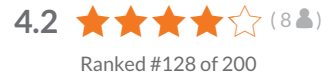

Keeping up aware of new guidelines (covid)

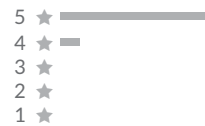

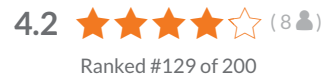

Ensure health of school body

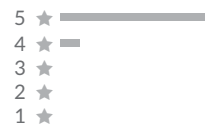

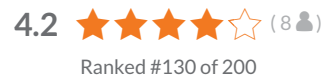

Outdoor spaces should be used whenever possible. Teachers should be trained on how to best utilize these areas and all classes rotate. This would help with social distancing, but not in a negative way.

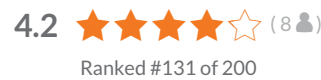

Regardless of your final plan, there should be a set schedule that you keep to for a certain period of time so kids expectations are in check. It's important for kids to have a schedule and know what they can expect.

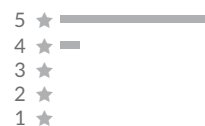

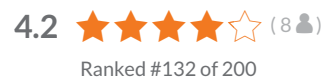

Share plans with the community on how in-class & remote learning will be implemented so feedback and adjustments can be made. Students and their parents need to know how instruction will be handled, so they can plan ahead and adjust their expectations beforehand.

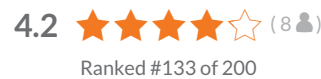

Social distancing,

Speaking for staff.. do they get a planning day/ time?

Teacher's need time to prepare for whatever plan is put in place. Students deserve a prepared teacher.

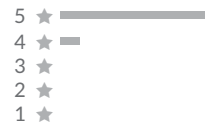

The safety of students & staff Because safety for all is the only way learning can take place consistently over the long term

4.2  (8 )
Ranked #134 of 200

The safety of the children and staff should be 1st health

4.2  (8 )
Ranked #135 of 200

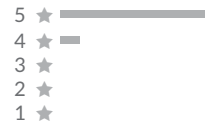

The sanitation of the schools. How often will they be sanitized and how often will there be deep cleanings. This is important because that is what they say is so important: cleaning, sanitizing regularly

4.2  (8 )
Ranked #136 of 200

The schedule must be consistent for students and teachers Students need to know when they will have class without a lot of guesswork. Teacher consistency would allow every class to have a specific Meet time.

4.2  (8 )
Ranked #137 of 200

Transportation How will this be organized to maintain social distancing? Disinfecting buses between routes will be necessary.

4.2  (8 )
Ranked #138 of 200

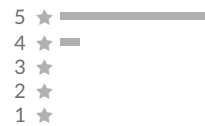

Until scientists know it is safe to be indoors very few people should be indoors at the same time. Every class should have air purifiers and ventilati on.

4.2  (8 )
Ranked #139 of 200

Virtual learning should still be an option so students don't miss too much school If anyone in a student's household is sick everyone would need to be quarantined so should still be able to attend classes virtually

4.2  (8 )
Ranked #140 of 200

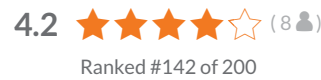

What is class size going to look like to ensure social distancing? How is the school going to ensure little ones stay socially distant Social distancing has proven to slow the curve.

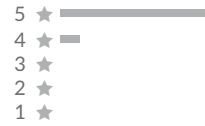

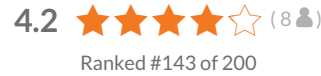

4.2  (8 )
Ranked #141 of 200

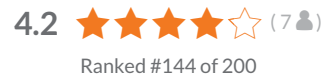

While the schools plans are important, the community as a whole plays a much bigger role. We must be vigilant as a community. It doesn't matter how well the school is able to limit contact if when people get home they are ambivalent.

all teachers should wear masks they are more susceptible

Adjust curriculum expectations Distance learning for both students and educators is much more time consuming and difficult to manage . Focus on the most important curriculum.

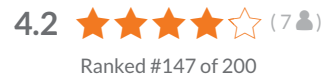

Clean the facilities every day Gets rid of any germs that might linger throughout the school day

Distanced seating. Hand sanitizers throughout school. Monitoring bathrooms for fewer occupants and handwashing checks. Stricter stay home sick policy. Control spread of germs.

Door handles and restrooms should be cleaned frequently

Emphasize to children we know things are different We are a team and and in this together

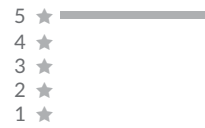

I am concerned about children's education. This spring happened so fast that there was not enough time to work out the kinks in virtual learning.

If a student or member of staff becomes ill, they were likely contagious before they exhibited symptoms. How will this be handled? It's not enough to stay home when sick. There needs to be a way of contact tracing all those exposed to the student/teacher/bus driver/custodian etc

4.2  (7 
Ranked #150 of 200

If classes do need to go online, hopefully there will be more guidelines for the teachers to follow.

4.2  (7 
Ranked #151 of 200

PPE, cleaning rooms, desks, bathrooms MUST be clean. They are a disaster now. This is critical to kids returning.

4.2  (7 
Ranked #152 of 200

Recorded lessons for children who are remote learning

4.2  (7 
Ranked #153 of 200

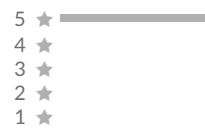

School building sanitization - common shared areas: offices, classrooms, bathrooms
Ongoing building sanitization is imperative throughout the school day. Teachers/students need access to hand sanitizer throughout the building.

4.2  (7 
Ranked #154 of 200

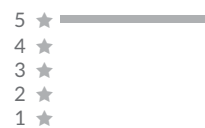

Student interaction is imperative for social and emotional growth and learning-safety should be the #1 concern and we need to have procedures in place While its important for students to see each other and their teachers, we don't want them learning while in constant fear and anxiety.

4.2  (7 
Ranked #155 of 200

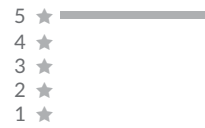

Technology must be provided by districts. All students must have access to technology and internet services.

4.2  (7 
Ranked #156 of 200

The health and safety of children and staff should be the prime consideration. People's lives are more important than any other consideration.

4.2  (7 )
Ranked #157 of 200

The most important thing that needs to be addressed is what is going to be done to make the staff and students be and feel safe in the building.

4.2  (7 )
Ranked #158 of 200

There is still a lot of unknowns about COVID
Studies being conducted about long term impacts that we don't have the answers to yet

4.2  (7 )
Ranked #159 of 200

Ventilation system Virus can be spread by recycling of air in indoor spaces

4.2  (7 )
Ranked #160 of 200

What is the timely protocol for notification of a sick student or staff member or exposure to said person?

4.2  (7 )
Ranked #161 of 200

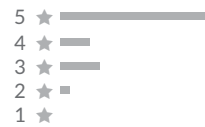

safety to keep them physically and mentally well

4.2  (7 )
Ranked #162 of 200

If you know a person is ill and does not follow proper protection, say something to teacher or staff member Important that the teacher or staff member immediately act and not wait or do no nothing.

4.1  (22 )
Ranked #163 of 200

Testing for students and staff Staff need to know they are safe. Students need to not be sent to school if they are sick.

4.1  (20 )
Ranked #164 of 200

Please consider a consistent schedule for the children and teachers. Having rigorous schedule provides stability. Allow for planning when/if kids are out of school (and teachers kids too).

4.1  (18 )
Ranked #165 of 200

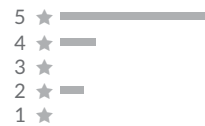

Have parents who are able to transport their kids to school as opposed to taking the bus. This will reduce the number of kids on the bus and reduce risk of spread.

4.1  (17 )
Ranked #166 of 200

Hire sanitization crews & outline what those protocols and schedules are. Purchasing virus killing products & machines for all areas including buses!

4.1  (17 )
Ranked #167 of 200

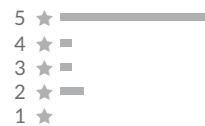

Safety and cleanliness I want to make sure my child doesn't become ill

4.1  (17 )
Ranked #168 of 200

Recess Children need exercise and team building - but done so safely

4.1  (16 )
Ranked #169 of 200

Social/emotional well-being Children will need healthy interactions with their peers.... this isolation has taken a toll on their communication skills, and interpersonal skills

4.1  (16 )
Ranked #170 of 200

Clarity on guidelines, suggestions, and best practices Published best practices should be made available to teachers and students that include requirements, suggestions, and Best practices

4.1  (15 )
Ranked #171 of 200

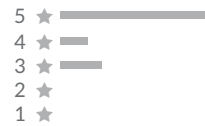

Cleaning Schools need to be thoroughly cleaned on a very regular basis

4.1  (15 )
Ranked #172 of 200

Live classes with teachers - having a schedule to follow (9-11 am - periods 1-4.) then 12-2 (periods 5-9).. It is felt that teachers need to be doing Live Instruction instead of videos. This way, students can ask questions if any arise as it happens)

4.1  (15 
Ranked #173 of 200

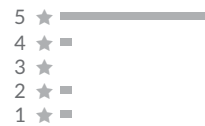

Make sure schools are sanitized Keep the kids healthy

4.1  (15 
Ranked #174 of 200

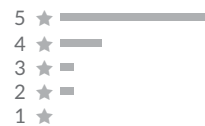

Restrooms would pose a major issue if schools reopened. Hand washing is critical to stopping the spread of the virus and is tough to enforce

4.1  (15 
Ranked #175 of 200

Teachers need to input ALL assignments UPON DELIVERY with a due date. Too often teachers enter work once due, leaving the less organized student & family ;-(to scramble.

4.1  (15 
Ranked #176 of 200

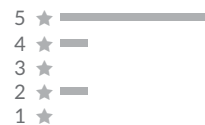

Teachers should all be using the same platform So that students can better navigate their classrooms and assignments. Otherwise online learning is chaotic

4.1  (15 
Ranked #177 of 200

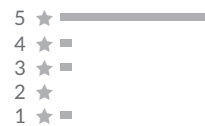

Enforcement of rules Someone will not follow if no consequences

4.1  (14 
Ranked #178 of 200

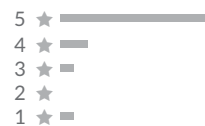

Enhanced extensive cleaning and sanitizing Health and Safety of all

4.1  (14 
Ranked #179 of 200

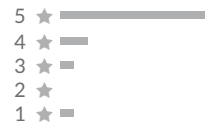

Health and Safety Practical health and safety to minimize risk and stop spread should there be a positive case

4.1  (14 
Ranked #180 of 200

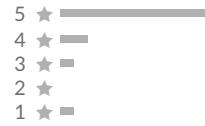

I believe the children need the physical classroom experience, however the safety of the children and staff are main priorities. Masks all day have to been a must and social distancing in the classroom will have to be enforced somehow and in someway.

4.1  (14 
Ranked #181 of 200

More hall and safety monitors. To assist in monitoring the behavior of the children as well as providing safety measures such as hand sanitizer, etc...
