From the Supervisor Audrey Nevins

Street Light Repairs

Residents noticing repairs needed to streetlights can easily report the problems to Consumers Energy via their website. The website is www.consumersenergy.com. You will click on For Home and then click on Report an Electric Outage and then click on Report a Street Light Problem. You will fill an online form and they will notify you by email when the problem is resolved. You can also call them at 1-800-477-5050 and follow the prompts to report the problem.

Community Block Grant Projects in Cutlerville

Cutlerville Residents will benefit from two grants from the Community Development Block Grant program. The first was $50,000 for new playground equipment in Cutler Park and the second is $100,000 toward a new fire engine for the Cutlerville Fire Department.

CDBG monies are received from the U.S. Department of Housing and Urban Development (HUD) and distributed through a Kent County department. The amount allocated to each community is based on Census figures.

From the Water and Sewer Department

The water & sewer assessment bills will go out on Tuesday, June 30th. If you have an annual assessment payment of either water or sewer, or perhaps both, they will be due on July 31, 2009 before the close of business. Any bill that is not paid on or before 5:00 pm, August 31, 2009 will be assigned to your winter tax bill. We have a drop box on the East side of the building for your convenience.

The Consumer Confidence 2008 Water Quality Reports are going out in the summer tax bills if you are in a section within the township that has public water. This report is supplied by the City of Wyoming, and tells you that your drinking water is safe. If you need additional copies, we have them available at the township office for distribution.

If you have underground sprinkling, you may want to inquire about getting a second water meter to meter your sprinkling water. For more information on sprinkling meters please contact our office or go to the Water and Sewer section of the website.

**Census 2010**

*Counting Everyone Once—and only once—and in the right place*

The foundation of our American democracy is dependent on fair and equitable representation in Congress. In order to achieve an accurate assessment of the number and location of the people living within the nation’s borders, the U.S. Constitution mandates a census of the population every 10 years. The census population totals determine which states gain or lose representation in Congress. It also determines the amount of state and federal funding communities receive over the course of the decade.

By 2010, there will be an estimated 310 million people residing in the United States. Counting each person is one of the largest operations the federal government undertakes.

With one of the shortest questionnaires in history, the 2010 Census asks for name, gender, age, race, ethnicity, relationship, and whether you own or rent your home. It takes only about 10 minutes for the average household to complete. Questions about how we live as a nation, our diversity, education, housing, jobs and more are now covered in the American Community Survey and is conducted annually throughout the decade and replaces the Census 2000 long-form questionnaire. Responses to the 2010 Census questionnaire are required by law. All responses are used for statistical purposes only, and are strictly confidential.

**TREASURER’S FORUM**

**By Carol Houseman**

Very often property owners have concerns over the amount of their tax bill and perhaps do not realize where their taxes go.

Below is a tax chart for a home that has a homestead exemption and is valued at $200,000 with a taxable value of $100,000. It will show the taxing authority, millage rate and annual tax dollars.

One mill equals one dollar per thousand of taxable value of your property. In the above example 28.9708 mills equates to 28.9708 X 100 representing the taxable value in thousands and the taxes are $2897.08 annually.

Non PRE (principle residence exemption) properties, such as rental property and a second residence are not considered your homestead and are assessed 18 mills more than properties with a homestead exemption. That additional tax goes to support education.

In 1993 prior to the implementation of proposal A, the millage rate was 52.891 mills. Today it is 28.8745. That’s 23.9202 mills lower than 1993. Proposal A also limits annual property tax increases to the rate of inflation or 5% whichever is less.

While the process is confusing, I hope it answers some of your questions.
