Breaking Down the Carlisle Connectivity Project

The northern part of Carlisle is beginning to look a lot different! Last fall, the shovels went in the ground, kicking off the Carlisle IAC Brownfield Redevelopment Project. The project will transform the 48 acres of brownfields into a mixed-use development that includes a residential/retail/office complex, a hotel, restaurants, and a stormwater park. The former Tire & Wheel site also came alive as construction on townhouses began.

As that vital redevelopment continues, the Borough will begin its own work on the Carlisle Connectivity Project, a series of transportation upgrades designed to improve mobility around and through the brownfield sites. At April’s Borough Council Workshop Meeting, the Borough’s program manager for the Project, Herbert Rowland & Grubic, Inc., presented Council and the public with updates on the different projects as well as a tentative timeline.

The Connectivity Project is comprised of three different projects with different timeframes. The first project involves transportation improvements associated with the IAC site redevelopment and is broken down into two phases. The first phase, known as the “Western Phase,” includes the extension of A, B, C, and D Streets from Fairground Avenue to Carlisle Springs Road. The Western Phase is currently underway and is expected to run through November of this year. Since this phase does not include work on active roadways, no traffic disruptions should occur.

Phase two is called the “Highway Occupancy Permit Phase,” because a PennDOT permit is needed. The HOP phase involves improvements to Carlisle Springs Road, a state highway. Pending permit approval, this work could start in June of this year and continue through May 2019. The plan is for the bulk of construction for the HOP to be completed in 2018, with final paving and cleanup in 2019. Work for the HOP phase will require temporary adjustments to traffic patterns on Carlisle Springs Road between E Street and North Hanover Street, pending PennDOT approval. The construction contractor will be responsible for installing signage and using flaggers to direct traffic safely around the construction. The Borough will be replacing its water main on Carlisle Springs Road during the HOP phase construction. Conducting these activities concurrently should reduce the impact of the needed construction on the public and allow the Borough to reduce overall construction cost. The total construction budget for both phases of the IAC Site Redevelopment project is $4.4 million.

(Continued on page 2)
The second part of the Connectivity Project is referred to as “Borough Project 1.” This section involves improvements to North Hanover Street and Carlisle Springs Road. The intersection of Carlisle Springs Road and North Hanover Street will be realigned to bring the approach to a 90 degree angle. There will also be a traffic signal installed at the intersection. Further south, a 5-point roundabout at the intersection of North Hanover Street, West and East Penn Streets, and Fairground Avenue will be installed. This complex project is still in the pre-construction phase with construction likely to begin in fall of 2019 and to be completed by spring 2021. The work at North Hanover Street and Carlisle Springs Road will be done as a staged construction without the need for detours. Two lanes of traffic will be maintained throughout by shifting traffic off to the side. Parts of Fairground Avenue and West and East Penn Streets will need to be temporarily closed during the roundabout construction. The total budget for Borough Project 1 is $8.6 million.

The third project is the “TIGER Project.” This project earned its name because of the type of federal grant that is helping fund it: Transportation Investment Generating Economic Recovery. This project consists of traffic calming measures and stormwater and sidewalk improvements along Fairground Avenue and B Street. A 3-point roundabout is planned for B Street and Fairground Avenue while a 4-point roundabout is proposed at B Street and North College Street. This project is also still in the pre-construction phase, with construction slated to begin in the late summer of 2019. Traffic will be detoured for this project in phases, one block at a time. Accommodations will be made for residents in the area to access their homes. The total cost of this project is $10.9 million, with $5 million of that coming from the TIGER grant.

Please note: all the timelines given are TENTATIVE and subject to change. The Borough will provide residents and stakeholders with updates as we receive them.

Keeping YOU Informed Along the Way

The Borough of Carlisle wants to make sure residents and stakeholders are given the most up-to-date information during all phases of the Carlisle Connectivity Project. We have a communication plan to reach out to residents and stakeholders during this multi-year, multi-phase project.

Communication Platforms
- Project Website, www.carlisleplan.com. This site will feature day-to-day updates as well as background information, photo galleries, frequently asked questions, and more.
- Press Releases
- Social Media (Facebook, Twitter, NextDoor)
- Briefings at Borough Council Meetings and/or Workshop Meetings
- Future editions of The Gazette

Key Communication Events
- The start and end of each project phase
- Car shows and major events at the Carlisle Fairgrounds
- Major downtown events that attract out-of-town visitors
- Changes in traffic control: lane closures, road closures, detours, and flagging

Urban Redevelopment Plan Update
Development continues at the three former industrial sites in the northern part of the Borough:

- Construction on townhouses continues at the old Carlisle Tire and Wheel site on the northeast side of North College Street between C & D streets. The plan for this site includes 40 townhomes, 12 apartments, reconnection of C Street between College and Factory Streets, a two-acre park and a community building.

- Ground was broken at the former IAC/Masland site, owned by Carlisle Events. This site will eventually be home to a hotel, restaurants, offices, townhomes and apartments, and car condominiums.

- The former TYCO site is now being redeveloped by The Real Estate Collaborative (REC), a subsidiary of CAEDC, to include a mixed-use space for lodging, retail, food/beverage, office space and other services. Construction has yet to begin.
The temperature reached a high of 86 degrees on July 21, 1968, the day the Carlisle Community Pool first opened for business. Back then, it was known as the Carlisle Industrial Pool. About 1,200 people dipped their toes in the water on that first day. The next day, 900 people splashed into the pool. By the end of the first full weekend, 419 family memberships and 80 individual memberships were purchased! The total revenue for the pool’s first season? $7,177. That’s the equivalent of about $51,000 in 2018!

The Carlisle Industrial Pool was officially dedicated on Monday, August 5, 1968. Mayor Charles Wise served as the emcee and Reverend Anthony McGinley of St. Patrick’s Church gave an invocation. William S. Masland, one of the first sponsors of the pool, officially presented the pool to Borough Council President Kenneth Bishop Jr.

By the early 1970s, the pool’s first sliding boards were installed. Back then, an adult season pass cost $15 and a season pass for a family of 6 sold for $34. A swim team also formed at the Carlisle Industrial Pool. Improvements continued over the years, including a water slide, handicapped access ramp, diving boards, an upgraded wading pool, basketball & volleyball courts, and an aqua climbing wall.

The Carlisle Community Pool’s 50th season begins on Saturday, May 26 at 11:00 AM for Memorial Day Weekend. Come join us as we build the next 50 years of pool memories!

---

**Carlisle Community Pool Celebrates Milestone!**

**50th Anniversary Celebration**

Come out on Saturday, June 9th and celebrate this milestone anniversary for the CCP!

- 50% off Daily Admission rate all day!
- The first 50 daily admission patrons receive a special CCP sticker!
- The first 50 members get entered to win $50 off their 2019 pool pass!
- The pool opens at 11 AM with food trucks and festivities throughout the day! Touch-a-Truck from 12 PM-2 PM. At 1 PM, there will be a special cake cutting ceremony with Mayor Tim Scott!
- There will be contests, giveaways, Aqua Zumba and more!

---

**2018 Pool Season**

1236 Franklin Street  
(717) 240-6957

5/26 Memorial Day Weekend– 9/3 Labor Day Weekend  
(Pool Closed when Carlisle School is in session-5/29-6/1, 8/20-8/24, 8/27-8/31)

Hours: Sunday-Thursday: 12 PM—7 PM  
Friday-Saturday: 11 AM—6 PM

Special Events: Open Swim 6/30, 6-8 PM; Teen Night Pool Party 7/13, 6:30-8:30 PM, Members and Sponsors Pool Party 8/4, 6:30-8:30 PM

Become a member and take advantage of great benefits like free lounge chair rental, discounted daily guest rate (1 per member per day), discounted rental rates and members/sponsors only pool party!

Season passes can be purchased at the Parks & Rec Department, 415 Franklin Street, Monday-Friday, 8 AM-5 PM. See page 12 for prices.

Be a Leak Detective

If you have experienced sticker shock when opening your water bill, chances are you have got a leak somewhere. Leaks can account for up to 14% of water usage if they are not caught in time. We all know one of the universal signs of a leak is a dripping faucet or a running toilet. But sometimes the signs are a little less obvious and you won’t find out until you get your next water bill.

So whenever you are using your sinks, become a leak detective. Pay attention to how the water flows. If that normal, steady stream starts to change, it might be an important clue that a problem is present. A good leak detective will also look for clues around the house and outside the house as well.

- When you shower, check to make sure water is not running out of the faucet too. If it is, your tub/spout diverter may need replacing.
- Check under sinks and around your water heater for pooling water or signs of rust.
- If you have a sprinkler system, look for brown patches in your lawn. Water may not be reaching areas of the lawn due to a leak in the sprinkler head or water line. Also, if you see wet patches on your lawn and there was no rain, there may be an underground leak.
- If you have a water softener, make sure it is running properly. A malfunctioning water softener can possibly keep cycling over and over, causing a jump in your water bill.

By being a good sleuth and looking out for problems before they become too big, you can save yourself the headache of a huge water bill later.

Paying Online? Make Sure to Use the Right Site

There are more ways to pay your Borough of Carlisle utility bill than just sending it in a stamped envelope.

We offer online payment through our website, www.carlislepa.org. On the home page, click on My Borough and then click on Online Utility Pay. This will take you to https://carlisle.merchanttransact.com/, our official online bill payment site. You will need your utility bill to login or register and it is totally free. You can also set up auto-payment so you don’t have to worry about late payments.

It is important to note that this is the ONLY way to pay your Borough of Carlisle utility bill online. Third-party billing services will list the Borough of Carlisle on their site but they are not affiliated with or endorsed by us. These third-party sites will typically charge users a fee for paying their utility bills online. (Remember, our payment site is FREE.) In addition, when you pay your bill through these sites, your payment is not posted to your Borough of Carlisle account immediately. These vendors will take your payment and then mail the Borough a paper check for your payment, delaying the time it takes us to receive it. This method could put you in a bad spot and could cause you to be charged late fees or risk a shutoff.

You can also drop your payment off in person at Borough Hall, 53 West South Street. We are open Monday through Friday from 7:30 AM to 4:30 PM. An after-hours dropbox is also accessible at our building.

2017 Borough of Carlisle Water Quality Report

This is an annual report describing the quality of the water produced and delivered by the Borough of Carlisle Water Treatment Plant. If you have any questions about the report, please contact Dave Runkle, the Borough of Carlisle Lab Supervisor, at 717-240-6991.
**Compost Site Open for the Season**

The Borough of Carlisle’s Compost Facility reopened in late March. The compost site is located on Post Road off Route 11 at the north end of Carlisle. Carlisle Borough residents (I.D. required) are permitted to use this facility to dispose of leaf and/or brush waste which is generated from Borough properties. Other yard waste such as grass, tree stumps and tree waste that is larger than 12” in diameter and more than 6’ in length is strictly prohibited.

*Please Note: Contractors are NOT permitted to use the compost facility without a yearly permit. Permits can be purchased at Borough Hall, 53 West South Street.*

---

**Compost Site Hours**

Spring/Summer Hours: Now through September 1
- Wednesdays: Noon to 8:00 PM
- Thursdays: 7:00 AM to 3:30 PM
- Saturdays: 7:00 AM to 3:30 PM

Fall Hours: September 5 through December 15
- Wednesdays: 9:30 AM to 5:30 PM
- Thursdays: 7:00 AM to 3:30 PM
- Saturdays: 7:00 AM to 3:30 PM

*The Compost Facility is closed on all federal holidays.*

---

**No Open Burning Permitted in the Borough**

Outdoor open burning can create both a health and an environmental hazard. When yard waste is burned, it creates smoke that is rife with pollutants such as carbon monoxide and particulate matter. The smoke can create harmful side effects for those exposed to it. Even healthy individuals are susceptible to irritation of the nose, throat and mouth. **Yard waste should be taken to the Borough’s Compost Facility to be properly disposed.**

The Code of the Borough of Carlisle prohibits open burning anywhere in the Borough. The definition of open burning according to the Code is *“when individuals bum materials directly into the ambient air without passing through a stack or chimney from an enclosed chamber.”* The Code does not apply to road flares, smudge pots and similar devices associated with safety or occupational uses, as well as recreational fires. **The burning of trash and yard waste is prohibited!**

Additionally, any outdoor burning which produces noxious smoke and causes personal discomfort to the occupant or person on any nearby property or when atmospheric conditions or local circumstances make such fires hazardous shall be prohibited.

Grills for barbequing, chimineas or any device where the smoke passes through a chimney or stack from an enclosed chamber are permitted if they meet certain requirements. A chamber is considered enclosed when, during the time combustion occurs, only apertures, ducts, stacks, flues or chimneys necessary to provide combustion air and permit the escape of exhaust gas are open. **But, even chimineas and similar devices are prohibited if their use causes physical discomfort to a person on any nearby property.** Also, fires must be attended to at all times and completely extinguished by the person initiating the outdoor burning or by the property owner when done.

*If you have questions or concerns about what is permitted, please call the Codes Department at 717-240-6930.*

---

**Bulk Item Pick-Up**

Did you know that by participating in the Borough’s “Pay as You Throw” trash collection program, you can dispose of one bulk item a week at no additional cost?

If you are disposing of a bulk item, it must be placed curbside along with your designated green Borough trash bags. **Advanced Disposal will not collect any bulk item that does not have Borough trash bags next to it!**

*Please note: Pick-up of appliances that use Freon, such as refrigerators, freezers, and air conditioners, must be scheduled in advance. Call 717-240-6930 to schedule a pick-up.*
Borough Holidays:
Mark Your Calendar
Borough Hall is normally open Monday through Friday from 7:30 AM to 4:30 PM. Borough Hall will close on Federal holidays.
When Borough Hall is closed, there is no street sweeping or parking enforcement. Depending on the holiday, trash collection may also be suspended for the day. Please check our website or social media the week of the holiday for trash collection information.
The remaining Borough holidays for 2018 are:
Memorial Day (May 28)
Independence Day (July 4)
Labor Day (September 3)
Veteran's Day (November 12)
Thanksgiving Day (November 22)
Day After Thanksgiving (November 23)
Christmas Eve (December 24)
Christmas Day (December 25)

Be Stormwater Smart:
Vehicle Maintenance Matters
Stormwater management remains a big issue in Carlisle Borough. Stormwater pollution is a problem that knows no boundaries and neither does the solution. There are little things everyone can do to help maintain clean waterways.

Did you know that if your vehicle is not properly maintained, it could be a major stormwater pollutant? Think about it; if oil is dripping from your car onto your driveway, rain is going to carry that oil into the street and down a storm drain. That oil then ends up in our waterways.

You should also never dispose of unused motor oil, or any other chemicals, down a drain. You can recycle your unused oil. If you are not sure what to do with it, most auto shops will recycle it for you.

2018 Street Improvement Project
The Borough of Carlisle’s Public Works Department maintains 58 miles of Borough roads and 18 miles of public alleys. Throughout the year, the department focuses on preservation treatments of existing roads, including crack sealing, base repairs and pothole repairs. Then beginning in late August or early September, weather permitting, the crews focus on the dry milling and paving of certain sections of road, as well as the microsurfacing of other roads. The roads listed below are scheduled for maintenance and are subject to change.

What is dry milling? Dry milling involves the mechanical removal of the top 1 1/2 to 2 inches of existing road surface to remove unsound material and to facilitate surface drainage. After the milling occurs, crews will repave those sections of roads. The millings are also reused in various construction projects for the Borough.

What is microsurfacing? Microsurfacing is an application of a liquid asphalt/stone aggregate mixture coating over the road to extend its useful life. This process helps extend the life of pavement quickly and inexpensively. Microsurfacing also cures quickly, allowing the roads to be open to traffic much faster than with traditional paving.

2018 Milling & Paving Overlay
Franklin St.: From North St. to H St.
A St.: From Franklin St. to Ash Ave.
W. Louther St.: From Cedar Ave. to Cherry St.
W. Louther St.: From N. Orange St. to boundary
Walnut St.: Orange St. to west end

2018 Microsurfacing
Croghan St.: Forbes to north end
Redwood St.: Entire Street
C St.: Waggoner’s Gap Rd. to Franklin St.
Glendale St.: Hillside St. to Stratford St.
Devonshire St.: Entire Street

“No Parking” signs will be posted prior to the start of the work.

The Borough of Carlisle will make every effort to limit any inconvenience to its residents during these roadway improvements. We appreciate your patience during this process. If you have any questions, please call Public Works at 717-240-6930.
Want Chickens? You DO Need a Permit!

Chickens are now allowed in backyards in the Borough of Carlisle, but you MUST OBTAIN A PERMIT if you want to keep fowl on your property.

Chickens can only be kept on residential lots in the R-1 Low Density Residential Zoning district or on residential or institutional lots having a lot area of at least 5,000 square feet.

A resident can have up to four chickens on their property. No roosters are permitted. You can find the complete list of requirements and the permit application on the Borough’s website, under the My Borough section.
Carlisle Police Department Officers Honored

Every year, members of the Carlisle Borough Police Department nominate and vote for one of their own to be Officer of the Year.

For 2017, Officer Zachary Saum was chosen by his peers to receive this distinguished honor. At the Borough Council meeting in March, Chief Taro Landis presented this award to Officer Saum. Chief Landis credited Saum’s enthusiasm and “dedication to delivering quality law enforcement services to the citizens of Carlisle” with earning the award.

At the same meeting, Chief Landis presented Detective Antanina Klinger with a Chief’s Commendation for 2017. The Kling, as she is affectionately known around the department, was given this special award for “successfully investigating several serious and complicated crimes perpetrated against the citizens of the Borough of Carlisle.” Chief Landis also thanked her for her can-do attitude.

Congratulations to Officer Saum and Detective Klinger for a job well done!

2018 National Night Out

National Night Out occurs on the first Tuesday of August. The event helps promote police and community relationships, neighborhood safety and trust.

Join the Carlisle Police Department on Tuesday, August 7 for a night of free food & fun! Look for more details to be announced on our website & social media or call the Department at 717-243-5252 for more information.

Preventing Auto Thefts & Break-Ins

Summertime brings a rise in temperatures and a rise in automobile thefts. July and August often see a spike in car break-ins and thefts according to the Insurance Information Institute. Thankfully, there are several simple tips to keep your vehicle safe. These tips may seem like common sense, but do not take anything for granted.

- Never leave your car unlocked.
- Never leave your car running while it is unattended or unlocked.
- Never leave your windows open. The hot summer temperatures may make you want to crack your windows while your car is unattended, but that leaves your automobile vulnerable to theft.
- Park in well-lit, public areas.
- Do not leave valuable personal property in your car. If you absolutely need to leave something of value in your car, place it out of view, either under seats or in the trunk.
Summer Grilling Safety

Summertime is grilling time! Cooking on the grill is a summer staple for many, but make sure you are grilling safely so the Carlisle Fire Department does not have to crash your summer barbecue.

The Carlisle Fire Department offers the following tips to keep the fire IN the grill:

If you are using a **propane grill**, inspect the propane hose for any leaks. Most grill fires are caused by a leaking hose. Apply a light soap and water solution to the hose using a brush or spray bottle and then turn the propane tank on. If there is a leak, the propane will release bubbles around the hose. If there are bubbles, turn off the tank and have your grill serviced by a professional before using it again. You should also check the major connection points between the tank hose and the regulator and cylinder, and where the hose connects to the burners. Tighten any loose connections.

When cooking, turn off the tank and burners if you smell gas. If the leak stops immediately, have the grill professionally serviced before using again. If the gas smell continues, move away from the grill and call the fire department immediately. **Do not move the grill!**

If you are using a **charcoal grill** to do your cooking, do not use gasoline to start the fire. Only use the proper charcoal starting fluid. Make sure you store charcoal and charcoal fluid out of the reach of children and away from heat sources. If you choose to use an electric charcoal starter, which does not use fire, make sure you are using an extension cord for outside use. When you are done grilling, let the coals cool completely before disposing of them. Hot coals can retain their heat for up to 12 hours. Make sure you discard them using a non-combustible container.

Both of these grills should only be used outdoors. Make sure you place your grill well away from your home’s siding, deck railings and out from under eaves and overhanging branches. Do not ever leave your grill unattended and always keep children and pets away from the grill area. And finally, make sure you keep your grills clean. Grease buildup is another leading cause of fires in gas grills. Make sure to always remove grease and fat buildup from the grill and the tray below the grill.

---

**Smoke Alarms Save Lives!**

When there is a fire, smoke spreads fast. Working smoke alarms provide you and your family with an early warning so you can escape outside as quickly as possible.

**Safety Tips:**

- Install smoke alarms in every bedroom and outside each sleeping area. They should also be on every level of the house, including the basement.
- Since smoke rises, make sure to install alarms on the ceiling or high on the wall.
- Test alarms by pushing the test button at least once a month.
- Replace batteries at least once a year.
- Replace smoke detectors when they are 10 years old.
- Smoke alarms that use strobe lights or vibrations are available for those who are hard of hearing.

---

**Want to Help YOUR Community?**

The Carlisle Fire Department is always in need of volunteers. The fire department saves residents hundreds of thousands of dollars each year through volunteerism. While the department is always looking for firefighters and rescue technicians, there are a plenty of other opportunities including fundraising, special events, education & outreach, and volunteer training.

*If you’re interested in volunteering with the Carlisle Fire Department, please visit www.carlislefire.net and fill out an application!*

*The Carlisle Fire Department will also be starting its annual fund drive soon. Look for their letter in your mailbox this summer.*

---

**Cumberland Goodwill Emergency Medical Services** runs an annual fund drive to help fund the costs of providing ambulance service to the residents of the Carlisle area. Your participation in this membership drive helps paramedics and EMTs with equipment, training, and vehicles necessary to treat your emergency. Helping us can help your family as well—members with eligible trips to an emergency room are often not responsible for out-of-pocket costs they may be left with by an insurer or Medicare.

For complete details or to sign up, visit [www.cumberlandgoodwill.org](http://www.cumberlandgoodwill.org) and click on the “Buy a Membership” tab at the top of the page. Thank you for your support!
Human Relations Commission Provides Annual Update

During the March 8, 2018 Council Meeting, HRC Chair Nancy Gregor briefed Council and the public on the HRC’s activities since the passage of the HRC Ordinance in early 2017. The Commission created and adopted by-laws, and processes including form letters for potential complaints; underwent training; performed outreach to generate public awareness of the HRC’s purpose by way of a brochure and presence at community events and identified residents interested in volunteering. One complaint was received but the parties did not proceed to mediation.

The Borough of Carlisle’s Human Relations Commission is a mediating body that when both parties have consented they can work through their differences utilizing the HRC mediation or another dispute-resolution service/provider. Mediation sessions remain private and are not subject to public attendance.

For more information on the Borough’s Human Relations Commission, visit the Boards and Commissions section of our website, www.carlislepa.org.

Borough in Charge of Tax Collection

A reminder: the Borough has reassumed tax collection duties as of January 1, 2018. You can pay your real estate taxes at Borough Hall, 53 West South Street. Credit and debit cards are not accepted. The Borough also performs other tax services, such as tax certification.

Delinquent real estate taxes must be paid to “Cumberland County Tax Claim Bureau” via certified check, money order, Cashier’s Check, or cash. Personal or business checks are not accepted unless from a lender or an attorney. You can mail your payment to: Cumberland County Tax Claim Bureau, 1 Courthouse Square, Room 106, Carlisle, PA 17013

SIDEWALK ASSISTANCE GRANT

The Borough of Carlisle administers a sidewalk inspection & maintenance program to guarantee barrier-free public access throughout the community. Sidewalks are inspected on a 10-year rotating basis.

If you are a low or moderate-income homeowner and must have any deficient curb or sidewalk replaced, you may be eligible for the Borough’s Sidewalk Assistance Grant Program. Grants up to $2,000 or 100% of the project costs, whichever is less, may be made to low-income homeowners. Grants up to $1,400 or 70% of the project costs, whichever is less, may be made to moderate-income homeowners.

SAG recipients must fall below the current year limits for low or moderate-income based on the number of people in the family.

Recipients must own and reside in the dwelling where curb and sidewalk work is to be done. Funding is for replacement of deficient curb and sidewalk only. Deficiencies which require patching only, relaying of brick or stone costing less than $300 fair market value, and the filling of tree wells are not eligible for funding. Contractors must be selected from a list which is pre-approved by the Redevelopment Authority of Cumberland County.

Sidewalk Assistance Grant funds are limited and will be awarded on a first-come, first-served basis. If you think you may be eligible for a Sidewalk Assistance Grant, please contact Patricia Mrkobrad at the Cumberland County Redevelopment Authority at 717-249-0789, ext. 136.
Once Planted, Keep Those Trees Trimmed!

Last year, the Borough of Carlisle purchased a new Elgin Pelican street sweeper. If you are an early riser, you may have caught a glimpse of the Pelican as it hummed along, sweeping up dirt and debris next to your curb. Did you know that low tree branches are one of the biggest obstacles the driver faces as he goes about his work?

The Borough would like to remind property owners that it is your responsibility to keep your street trees pruned. Low hanging branches can cause damage to vehicles such as the street sweeper. Even smaller vehicles, bicyclists and pedestrians face damage or injury from low branches.

In addition, when a vehicle strikes a tree branch, the branch breaks harshly, disfiguring your tree and creating the potential for pests or disease to harm your tree.

The Shade Tree Ordinance specifies that property owners must keep branches on their street trees elevated to 14’ over the street and 8’ above the sidewalk. If a tree is young or does not grow very tall, the owner should prune the tree to a height that eliminates much of the interference with vehicles and pedestrians without destroying the form and aesthetics of the tree.

Before pruning your street tree(s), contact Carlisle Parks and Recreation to obtain a tree pruning permit and pruning regulations. Property owners are subject to fines for improper pruning, such as topping a tree, pruning a street tree without a permit or removing a street tree without approval.

For more information, or to obtain a tree permit, contact Andrea or Melinda at Carlisle Parks and Recreation, 415 Franklin Street. Call (717) 243-3318 or e-mail parksandrec@carlislepa.org.

Mosquito Season Underway

Mosquitoes are not just pests; they can also transmit diseases such as the West Nile Virus. And during the heat of the summer, they seem to be everywhere.

Cumberland County will periodically spray certain areas overnight for mosquitoes, but you can also help control the population.

Standing water is the biggest culprit. Mosquitoes breed and thrive in that stagnant water. Empty any containers you have outside every 5 days. Clear leaves and debris from your rain gutters so water moves freely. Flush out the water in your birdbaths at least once a week. Old tires often collect water and can attract mosquitoes. Move them inside or, better yet, recycle them.

If you do have certain containers outside where you can’t remove the water regularly, treat them with a bacteria-based product like Mosquito Dunks or Bits.
Summer Programs and Parks

At Bricks4Kidz® S.T.E.A.M. LEGO® Camp, your child will design and build educational models including motorized machines, develop problem solving and critical thinking skills through creativity, and apply math & science to real world situations while exploring architecture and engineering concepts. We build new models each week - no two Bricks4Kidz® summer camps are alike.

Instructor: Doug Fitzgerald

Session I: Monday—Friday, June 25—29
8:30—11:30 a.m.
$150/resident, $158/non-resident (per session)

Session II: Monday—Friday, July 16—20
8:30—11:30 a.m.
$150/resident, $158/non-resident (per session)

Engineering Camp (NEW)

(Ages 8—13 years) In our engineering camps, kids turn into real engineers: designing, evaluating and reconstructing machines and super structures. (The creations are inspired by real life structures from all over the globe and get more and more amazing with imagination!) Every project has a clever theme to spark imaginations and turn problem solving and skill building into a fun game.

Instructor: Sylvan Edge Staff

Radical Racers: Monday—Thursday, July 30—August 2
Bridge Engineering: Monday—Thursday, August 6—9
9:00 a.m.—12:00 p.m.
$149/resident, $157/non-resident (per session)

Making The List: Carlisle Is A Great Place to Be

If you are reading this, you most likely already live in the Borough of Carlisle and know about all the great things the Borough has going on. We continue to get recognized across the country. Recently, Carlisle has been named on two separate lists: “The Top 100 Small Cities to Relocate To” and “The Top 40 Most Underrated Small Cities.”

These lists highlight smaller cities, towns, and boroughs that are unique and have a lot of good things to offer residents and visitors. We decided to take to social media and find out from YOU what you think makes Carlisle so noteworthy.

The downtown area of Carlisle received many compliments from some recent transplants. Damian moved here in December and says that “downtown has a real great vibe. The coffee shops, brew pubs, and restaurants are great.” Kaytlin is another recent transplant to the Borough who told us that she loves “the views and the downtown scene. I can’t wait to keep exploring!”

People also have fond memories of their visits to Carlisle. Leitha, whose daughter graduated from Dickinson College, told us “I left a little piece of my heart in Carlisle... I met such wonderful people at Dickinson and in the town. So quiet. Historically beautiful… and such caring townspeople.”

People who have lived here a long time also have some nice things to say. Nathan, who has lived in Carlisle for 20 years, said, “This town is special. I proudly call it home, as do so many others.”

Upcoming Events

June 1: Downtown Carlisle First Friday– Art & Wine Walk
June 2: Ford Parade & Street Party
August 3: Downtown Carlisle First Friday- Kids’ Night Out!
August 25: Corvette Parade & Street Party
September 7: Downtown Carlisle First Friday– Brewfest
September 22: Harvest of the Arts
October 5: Downtown Carlisle First Friday- Music Walk

For a complete list of events, visit www.lovecarlisle.com
