9. In accordance with the Pennsylvania Anti-bid Rigging Act that became law on October 23, 1983, the Borough requires each bidder to complete and return the Non-Collusion Affidavit. The Affidavit is to be completed as follows:

   A. This Non-Collusion Affidavit must be executed by the member, officer or employee of the bidder who makes the final decision on prices and the amount quoted in the bid.

   B. Bid rigging and other efforts to restrain competition and the making of false sworn statements in connection with the submission of bids are unlawful and may be subject to criminal prosecution. The person who signs the Affidavit should examine it carefully before signing and assure himself/herself that each statement is true and accurate, making diligent inquiry as necessary, of all other persons employed by or associated with the bidder with responsibilities for the preparation, approval or submission of the bid.

   C. In the case of a bid submitted by a joint venture, each party to the venture must be identified in the bid documents and an Affidavit must be submitted separately on behalf of each party.

   D. The term "complementary bid" as used in the Affidavit has the meaning commonly associated with that term in the bidding process and includes the knowing submission of bids higher than the bid of another firm, any intentionally high or noncompetitive bid and any other form of bid submitted for the purpose of giving a false appearance of competition.

   E. Failure to file an Affidavit in compliance with these instructions will result in disqualification of the bid.
10. The successful bidder is responsible for being familiar with and to know the location, means of access and all other features and conditions necessary for the successful bidder to make timely performance of the services. All costs and expenses of delivery of every kind, type or nature shall be the responsibility of the successful bidder. The successful bidder, its agents or representative shall be responsible for providing all services in accordance with all federal, state and local laws, regulations, codes and ordinances.

11. Any bids received after the deadline by which they are to be received are late bids. Such late bids will not be considered, but will be held unopened until the time of award and then returned to the bidder. No responsibility will attach to the Borough of Carlisle for the premature opening of, or the failure to open, a bid not properly addressed and identified. Bids may be withdrawn by written request received from the bidder prior to the time fixed for opening.

12. The Notice, Information and Instruction to Bidders, Non-Collusion Affidavit, Bid Proposal, Performance Bond, Bid Bond or certified check deposit, the Agreement, Specifications, and Exhibits shall constitute the “Contract Documents”, the terms of which shall constitute a binding contract with the successful bidder.

13. Conflict of Interest Notice and Responsibilities. A conflict of interest may take various forms but exists if a significant financial interest or other opportunities for tangible personal benefit may exert a substantial improper influence upon an employee, contractor or professional. A conflict of interest may exist when there is a divergence between private interests of an employee, contractor or professional and his, her or its obligation to the Borough such that: (i) a reasonable and independent observer might rationally question whether the employee’s professional responsibility might be influenced by considerations of gain or financial interest for either the employee, contractor or professional or their family or for other parties; or (ii) a reasonable and independent observer might rationally conclude that the conflict of interest undermines the integrity of any business of the Borough. A conflict of interest encompasses not only situations that are in fact improper, but also situations where a reasonable and independent observer might rationally observe the appearance of impropriety. This includes any potential conflicts of interest that are yet unrealized or that may be perceived by others to be conflicts of interest. For purposes of this notice, the family of any employee, contractor or professional shall include his or her spouse or companion, his or her siblings and their spouses or companions and his or her descendants and their spouses or companions. All bidders must provide with the bid a listing of current or potential conflicts of interest with respect to proving goods and/or services to the Borough of Carlisle as contemplated by this project. The successful bidder shall provide notice to the Borough of any actual or potential conflicts of interest that exist or arise in the course of providing goods and/or services to the Borough of Carlisle.

14. The Borough reserves the right to revise or amend any plans or specifications prior to the date scheduled for bid opening. In the event plans and/or
specifications are revised or amended, such revisions or amendments will be provided by use of an addendum, which will be provided to all prospective bidders.

15. The successful bidder shall supervise and direct the work efficiently and with its best skill and attention. The bidder shall be solely responsible for the means, methods, techniques, sequences and procedures of work and shall be responsible to see that the finished work complies with the Contract Documents and applicable permits as required.

16. The successful bidder shall provide only competent, suitably trained and qualified personnel to perform the work as required by the Contract Documents and shall furnish all materials, equipment, labor, transportation, machinery, tools, fuel, power, sanitary facilities and all other facilities and incidentals necessary for the completion of the work.

17. The successful bidder shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the work and shall comply with all requirements and regulations of OSHA, State, and local governments pertaining to such work.

18. The successful bidder shall, as a condition of award of the contract, provide evidence of the following insurance coverage, which insurance coverage shall be maintained during the course of work on the project:

   A. Comprehensive General Liability: $3,000,000 combined single limit $5,000,000 aggregate per occurrence for bodily injury, personal injury and property damage.

   B. Automobile Liability: $3,000,000 combined single limit $5,000,000 aggregate per accident for bodily injury and property damage.

   C. Workers’ Compensation, in statutory limits required by Pennsylvania;

Each policy shall be endorsed to provide the Borough with 30 days’ notice of cancellation and the Borough shall be listed as an additional insured for all insurance noted above except for workers’ compensation insurance.

20. The successful bidder shall insure, indemnify and hold harmless the Borough and its Council members, officers, employees, appointees and agents from and against any and all claims, suits, causes of action, losses, expenses and liabilities of any kind or nature, including attorney’s fees (and any attorney’s fees incurred in enforcing this provision) in any way arising or resulting from or in any way related to negligent, reckless and/or intentional acts by the successful bidder in providing services to or for the Borough under the Agreement and Contract Documents, including, but not limited to, claims, losses, fines, damage to property and bodily injury or death to persons. This provision will survive termination or expiration of the Agreement.

21. Each bidder shall fully complete the questionnaire included as Exhibit 4 and provide the completed questionnaire with the bid package to the Borough.

22. Residents of the Borough have participated in the Pay-As-You-Throw approach to residential solid waste collection services for many years. This approach has relied on a single sized refuse bag and is included in these Contract Documents as Part 5, Base Bid. All bidders shall provide pricing for the Part 5 Base Bid. All bidders shall also provide pricing for solid waste collection from Borough-owned street cans (Part 5B) and solid waste and recycling facilities for Borough owned facilities (Part 6).

The Borough is interested in receiving pricing for options to the Pay-As-You-throw, single sized trash bag approach. These options are included as Alternative Bid, Parts 5.A.1, 5.A.2, and 5.A.3, Bidders may elected, but are not required, to submit pricing for these alternate bids. The Borough will awarded the Contract to the Bidder who, in the sole opinion of the Borough, submits the lowest responsible, responsive Bid. Where cubic yard containers (dumpsters) are specified, it shall be the responsibility of the successful bidder to supply and maintain the dumpsters at no additional cost to the Borough in the size specified or larger at the successful bidder’s option.

E. Bid Price
Bidders shall state a total price per facility and lump sum price for each scheduled year of the contract. Said price shall be the sole payment for the total cost to pick-up, convey and dispose of solid waste from Borough-owned facilities and to provide a recycling collection service.

F. Compensation for Services
Borough shall pay Contractor monthly for services rendered.

4.02 Transportation, Sale, & Disposal of Materials Collected
Contractor shall transport the collected recyclable materials to a processing center or directly to recycling markets. Contractors shall take title to the recyclable materials upon their collection. Contractor may sell the recyclables for recycling and re-use, and the contractor shall retain the full proceeds of such sales. Contractor shall not commingle, combine, haul or contaminate recyclables with refuse. Failure to adhere to this requirement may lead to the imposition of penalties as set forth in Section 2.13. If Contractor takes exception to collect any recycled item outlined in this bid document, the item must be noted in the exception section of the bid. Although the Borough wishes to continue with its
present recycling program, it understands markets change from time-to-time and is willing to reduce its overall costs if a certain recycling item is cost prohibitive to recycle. **If the Contractor takes exception to any matter to be recycled, said matter shall be noted on the “Exception Page” of this document.**

Contractor shall transport collected refuse to a disposal site licensed by the Pennsylvania Department of Environmental Protection (DEP) and named in the Cumberland County Municipal Waste Management Plan. Cumberland County Ordinance and Municipal Waste Management Plan require municipal waste haulers to be registered. Contractor shall certify that a DEP-approved site will be utilized and that State, Federal, and Cumberland County laws, rules and regulations will be observed throughout the contract period.

### 4.03 Reports

Contractor shall, on or before the 10th day of each month, provide a report for the preceding month to the Borough, which shall be submitted in the form requested. Said report shall include the following information:

- Weight of recyclables; broken down by office paper and cardboard and all other materials.
- Weight of municipal waste disposed of from Borough-owned facilities identified for this contract.
- At the Borough’s option, weight slips documenting the delivery of wastes to a certified landfill and weight slips/receipts for recyclables delivered to a processing facility shall be submitted with each monthly report for the previous month.
- The name of the municipality (Borough of Carlisle).
- The contractor’s name.
- The month and year for which figures are being provided.
- A signature by an authorized representative of the contractor, attesting to the validity of the figures provided.

In addition, Contractor must comply with the reporting requirements of the Borough’s Solid Waste and Recycling ordinance and any other requirements specified by the Borough Manager, or his/her designee. However, the Borough of Carlisle may waive reporting requirements, if in the sole discretion of the Borough, Contractor is providing all required information to the County of Cumberland, and such reports are being furnished from the County to the Borough in a timely manner.
