BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 1

INTRODUCTION

Parks, Recreation and Open Space are important elements of all communities and reflect positively on the quality of life for residents. In recent years, a more holistic approach to recreational planning has been encouraged, stretching beyond the boundaries of traditional parks to include sidewalks, linear trails, greenways, town squares, plazas and other publicly and privately owned lands. In addition to the human benefits of recreation and open space, there are also important environmental benefits such as water resource protection, reduced vehicular traffic and plant and wildlife protection. The youth of the community are given places to go and activities to participate in that provide positive and constructive ways for them to use their leisure time. Families can find fun and inexpensive means of getting together with their friends and neighbors in a manner that builds a positive image of the community. The elderly also benefits from such programs in ways that provide for healthy and happy retirement.

PLAN PURPOSE

This 2022 Brownstown Township Community Parks and Recreation Master Plan is a guide for the future development of recreation opportunities for the residents and visitors of the Township. The plan addresses current recreation issues and identifies future needs of the community and the means for meeting those needs over the up-coming five-year period. It addresses both short and long-range goals and objectives and identifies an action program by which these goals and objectives can be accomplished. In addition, the plan serves as an educational tool to acquaint local officials and residents of the need for a sound and balanced recreation program.

This Plan has been developed both to reflect the needs and goals of the community and to meet the Michigan Department of Natural Resources requirements for qualifying for Federal and State funding assistance. These funds are available for land acquisition, facility development, and improvements to new and existing parklands.

PLAN SCOPE

The scope of this plan includes the Township's active and passive recreation facilities, undeveloped open space and linear "green" corridors. Recreational programming is also an important consideration. The area of the plan is essentially limited to the Township boundaries. However, consideration is also made of neighboring municipal facilities and regional facilities that influence use patterns. In terms of time, the Capital Improvement Schedule of this document covers development over the next five years and beyond. However, the Goals and Objectives developed to guide recreation planning may continue to be relevant for many more years to come.

The following Parks and Recreation Plan is an outgrowth of the impending need for increased recreational programs and facilities as the population of Brownstown Township and the surrounding area grows and diversifies. A well-conceived strategy for the acquisition of land, the development of facilities, expansion of programs, and the continuation of on-going operation and maintenance practices will assist the Township in meeting future recreational and leisure-time needs as they develop.

This recreation plan identifies facility and program needs that are expected to occur, develops short and long-range goals and objectives, and presents an action plan and justification for the implementation of the goals and objectives and the maintenance of existing and resulting facilities. The plan is task specific on the short range elements and more generalized on the long range elements to allow some degree of flexibility to respond to changes in need or interest at the local level. Deviations to the plan would, however, be subject to review and analysis prior to the modification of this plan.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 2

COMMUNITY DESCRIPTION

INTRODUCTION

Brownstown is a growing community located in southeast Michigan, south of the City of Detroit in Wayne County. Brownstown draws on its accessibility, natural features and strong community involvement as it continues to grow in population. With direct access from I-75 and US-24, and I-275, I-94, and Metro Airport nearby, Brownstown is in a position to provide large employment centers within close proximity to varied, convenient residential areas. Brownstown Township is part of the “Downriver” region.

Brownstown Township is unique in its physical layout, as portions of the original, 36 square mile Township were annexed to adjoining cities in the 1960’s. Since becoming a Charter Township, Brownstown eliminated the possibility of further annexation, and what remains today is a somewhat segmented Township, comprised of three areas that total roughly 23 square miles in size.

HISTORY

The township got its name from an early Indian village called "Brownstown". Historical records relate that several treaties were signed and important meetings were held at this village located near Gibraltar and West Jefferson Roads. Local historians such as the late Adele Rahn have done extensive research on the origins and the story of Brownstown.

According to one story, Adam Brown is the namesake of the area. At the age of 8, as the story goes, he was kidnapped by the Wyandot Indians in Virginia. The young captive grew to manhood among the Wyandots, married a native woman and, according to the history books, led a highly respected life. As an important Wyandot tribal elder, Adam Brown signed several treaties with the American government. Siding with the British in the War of 1812 Adam Brown moved to Amherstburg, Ont. after the the British defeat. Canadian church records show that Adam Brown died in September of 1827 in Windsor Ont. and is buried in a churchyard of that city. The region now known as Brownstown was, like surrounding areas in Michigan, once a part of the French Province Quebec. The area eventually fell into hands of British and finally came under American rule in the 18th

Century. What may not be realized at first glance, however, is that the community is 10 years older than the state of Michigan: The original 43-square-mile block of land south of

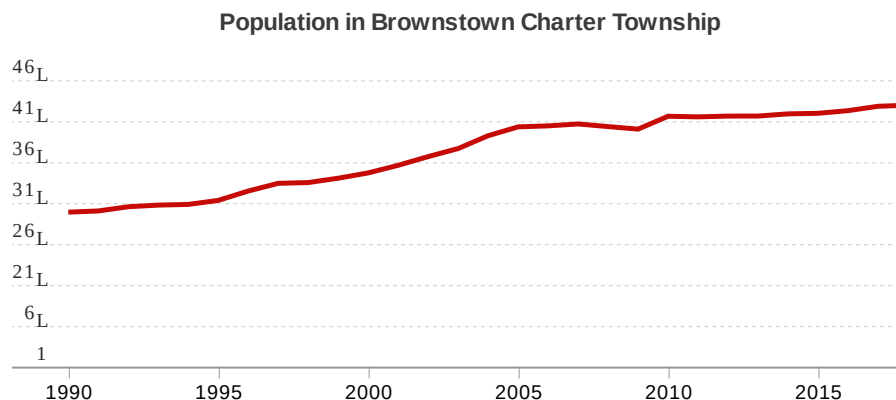

Detroit was designated a township - one of the nine original townships formed in Wayne County - by the Michigan Territorial Commission in 1827. Michigan did not become a state until 1837.

Brownstown Township was officially organized on April 5, 1827, when Moses Roberts was elected its first supervisor. As time passed, settlements spread out from the lakeshore to begin changing the swampy, sand-hill countryside into productive farm land. Various city incorporations down through the years reduced the area of our community to approximately 23 miles today.

SOCIAL CHARACTERISTICS

POPULATION

Population for Brownstown Township Census, April 1, 2020 was 33,194 from Census April 1, 2010 of 30,627, an increase of 8.4%.

Data from census.gov via Data Commons

POPULATION BY RACE

According to the most recent community profile information the racial composition of Brownstown Township is: White 71.1%, Black 11%, Asian, 6.1%, Hispanic 6.6% Multi Racial 4.7% and other being .6%.

HOUSHOLD INCOME

Median household income has risen from \$71,450 (ACS 2010 data) to \$75,871 (ACS 2019 data) for an increase of 6.2%.

PHYSICAL CHARACTERISTICS/RESOURCE INVENTORY

TOPOGRAPHY

The topography of the Township is relatively flat, with some hills and rolling plains. Many parks in the Township are located within a floodplain, which is of particular concern with respect to parks and recreation planning. Since these areas are often unsuitable for building they may be appropriate for resource protection and/or recreation. The same characteristics that make these areas unsuitable for building also create severe limitations with respect to development for active recreation. Well-drained land is needed for sports fields, playgrounds, golf courses, and other active use areas.

TRANSPORTATION

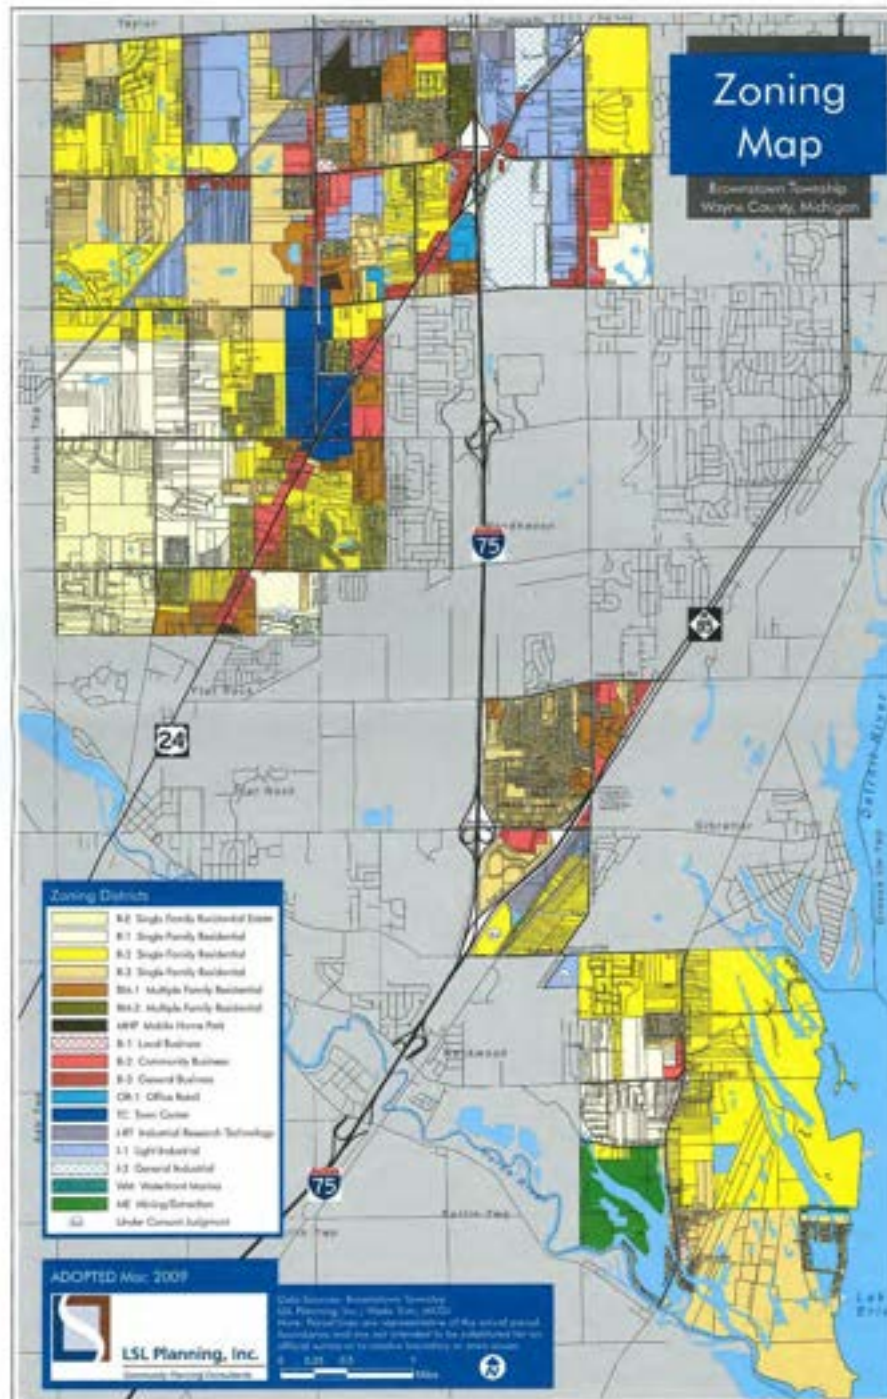

Brownstown's transportation system affects the accessibility of parks and recreational facilities. With direct access from I-75 and US-24, and I-275, I-94, and Metro Airport nearby, Brownstown is easily accessible via automobiles. The major east-west routes include Pennsylvania, Sibley, King, West, Van Horn, Vreeland, Gibraltar, and Woodruff Roads, while the major north-south routes include Telegraph Road, Fort Street, Jefferson Avenue, Allen and Inkster Roads.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 3

PARKS AND RECREATION DEPARTMENT

Daily operations of the Parks and Recreation Department are the responsibility of the Parks and Recreation Director. The Director is in charge of a full time and part time staff who monitor or maintain a segment of the parks and recreation system.

The Parks and Recreation Director is a full-time position under the general supervision of the Township Board. The Director is responsible overseeing the satisfactory operation and maintenance of all recreation facilities, owned, leased, or otherwise employed by the Township and all recreation programs and special activities and functions operated and/or sponsored by the Recreation Commission. This includes budgeting, program development, public relations, promotion, facility and equipment needs and staff management. The Director also works closely with many outside departments, organizations and volunteer groups to encourage a wide variety of recreational opportunities for the Township.

RECREATION COMMISSION

Established in 1972 under PA 156 of 1917, the Recreation Commission serves in an advisory capacity to the department to develop a long-range recreation plan to guide the development and operation of recreation facilities and programs in the Township and to make recommendations regarding Township owned parks and recreation sites.

In addition to the Parks and Recreation Department and Recreation Commission, a number of other Township departments and groups cooperate to aid in the delivery of activities and management of the parks and programming. Groups that coordinate to provide recreation in Brownstown include:

Planning Commission: The Planning Commission is involved in new development within the Township and assists in recreation planning and development. The Planning Commission is the avenue for the Township to rezone property for recreation purposes and reviews site plans for new recreation facilities or significant improvements to existing facilities. It is also the Planning Commission that can require recreation facilities as part of new development. The Commission meets on the second and fourth Mondays of each month and is comprised of seven Brownstown residents.

School Districts: The Parks and Recreation Department coordinates with the various school districts that serve the residents of Brownstown to effectively use existing facilities and avoid duplication of programs and services. When public school facilities are not being used for school activities, the schools give first consideration to the Township Parks and Recreation Department.

ANNUAL BUDGET – see budget following this section

CURRENT FUNDING SOURCE

The operating budget for the Parks and Recreation Department is annually adopted by the Township Board through the general fund for its fiscal year, which starts each January. Even though user fees are charged, the Township subsidizes these facilities including costs for major repairs and equipment. The Township actively explores alternative financing for additional capital improvements through grant programs and private donations.

ROLE OF VOLUNTEERS

Volunteers are used for special events in the Township and also for Meals on Wheels.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 4 EXISTING RECREATION INVENTORY

In order to determine the recreational needs for Brownstown Township, an analysis of the existing facilities was undertaken. The intent of the analysis is to provide a clear evaluation of the strengths and weaknesses of the existing recreational opportunities the Township has to offer its citizens. The inventory is based on information provided by Township staff and site inspections carried out by MCSA Group as part of the planning process.

TOWNSHIP PARK AND OPEN SPACE FACILITIES

Brownstown Township provides a range of passive and active recreation opportunities for residents within its Township Parks. There are 24 parks that have existing recreational facilities on approximately 168.6 acres of public land. There are also several undeveloped green spaces in the Township's ownership.

The Township properties can be classified as follows: eleven (11) neighborhood parks, two (2) community parks and one (1) natural resource areas. This classification is adapted from "Park, Recreation, Open Space and Greenway Guidelines," J. D. Mertes and J. R. Hall, 1995, as recommended by the Michigan Department of Natural Resources. A more detailed description and photographic inventory of each site follows. An Existing Recreation Facilities map at the end of this section illustrates the location of public park/recreation areas within the Township, and an Existing Recreation Facilities matrix provides a summary of the facilities provided at each location.

An Accessibility Assessment of each facility was undertaken using the following ranking system for the site elements based upon the 2010 Standards for Accessible Design:

- 1 - NONE
- 2 - SOME
- 3 - MOST
- 4 - ALL

5 - THE FACILITY MEETS THE PRINCIPALS OF UNIVERSAL DESIGN

Equitable Design, Flexibility in Use, Simple and Intuitive Use, Perceptible Information and Tolerance for Error, Low Physical Effort and Size and Space for Approach and Use.

NEIGHBORHOOD PARK

Neighborhood parks remains the basic unit of the park system and serves as the recreational and social focus of the neighborhood. This Park typically serves a ¼- to ½-mile distance and uninterrupted by nonresidential roads and other physical barriers. A size of 5-10 acres is considered optimal for this type of park. The focus is on informal active and passive recreational activities, such as walking, field games, court games, playground equipment, and picnicking. Brownstown Township has 11 parks that fit this category.

Capitol Park
Apollo Villa Road
4.2 Acres

Capitol Park is a 4.2-acre neighborhood park located in the Northwest corner of the Northern section. It includes a hopscotch, funnel-ball and other games, a basketball court, a playground, swings, and other separate play equipment, a walking trail/ fitness course, informal soccer field, picnic tables, grills and benches.

Accessibility Rating: 2

Most surfacing and walkways meet ADA. The play area does not offer accessible play opportunities.

Accessibility Improvements:

Add accessible path to playground. Add accessible path to basketball court. Add handicap parking space.

Condition:

Except for the playground equipment, the park elements are very dated and should be updated.

Chantham Park

Northeast corner of Vreeland Rd. and Allen Rd.

13.7 Acres

Chantham Park is located in the Northeast portion of the Central Section. The Park is the greenspace surrounding the Brownstown Creek/ Drainage Ditch. The only access is off Thomas Avenue.

Accessibility Rating: N/A

Accessibility Improvements: N/A

Condition: Grass area is well maintained

Culpepper Park
Culpeper and Jefferson
0.4 Acres

Culpepper Park is located in the North portion of the Southern Section. It includes playground equipment in a fenced area on the site of two unbuildable lots in an existing neighborhood.

Accessibility Rating: 1

Accessibility Improvements: Add accessible route and ramp to playground equipment. Provide barrier free parking space.

Condition:

The playground is newer. The vegetation that is encroaching on the playground should be removed. The fencing should be moved to encompass the entire park site to allow for fenced use of the lawn area.

Dawnshire Park

Dawnshire Drive

5.2 Acres

Dawnshire Park is located in the Southeast portion of the Northern Section. It includes playground equipment and a shelter. There is a paved access path from Dawnshire Road to lawn space.

Accessibility Rating: 1

Accessibility Improvements: Remove and replace existing path and extend to main playground equipment. Add safety surfacing under merry go round and swings. Add ramp to playground equipment. Add accessible path to shelter. Provide barrier free parking space.

Condition:

The main playground equipment is newer. The other equipment and shelter are older.

Labo Island
Jefferson Avenue
0.5Acres

Labo Island Park is located in the Southern portion of the Southern Section. It includes newer playground equipment. There are also timber barriers surrounding the park.

Accessibility Rating: 1

Accessibility Improvements: Add accessible path from road. Add ramp to playground equipment. Provide barrier free parking space.

Condition:

The main playground equipment is newer. There is some overgrown vegetation adjacent to the playground equipment that should be pruned.

Fairway Villa Park
Van Horn Road
6.7 Acres

Fairway Villa Park is located in the Southeast portion of the North Section south of Sleepy Hollow Park across Cornell Avenue. It includes three areas of playground equipment. Park includes DTE Utility Easement.

Accessibility Rating: 1

Accessibility Improvements: Add connection from accessible path to playground equipment and ramps to each area. Add ramp to playground equipment. Provide barrier free parking space.

Condition:

The main playground equipment and pathways are newer. There are significant drainage problems on the west side of the pathway adjacent to the evergreen trees.

Fort-Gib Park
Gibraltar Road and Fort Street
4.0 Acres

Fort Gib Park is located in the Southern section of the Central portion of the Township. It has two softball fields, a parking lot, a set of bleachers and a single swing set.

Accessibility Rating: 1

Accessibility Improvements: Add barrier free parking spaces to parking lot, accessible route to the fields and bleachers.

Condition:

Fields and backstop fencing are well maintained. Parking lot needs improvements. Fencing along Gibraltar and outfielders should be replaced. Add safety surfacing under swing set if it is to remain.

Hunter Park
Gibraltar Road and Fort Street
4.0 Acres

Hunter Park is located in the Northeast section of the Central portion of the Township. It has two softball fields, a walking trail, fitness station signs, and a soccer field.

Accessibility Rating: 2

Accessibility Improvements: Most surfacing and walkways meet ADA. The softball fields need an accessible route to the players benches. Add a signed barrier free on street parking spot and curb cut.

Condition:

Softball Fields are old. Soccer field goals should be replaced. Fitness station signs should be replaced.

Plumwoode Park
Plumwoode Court
3.7 Acres

Plumwoode Park is located in the Northeast portion of the Central Section. The Park is the wooded area surrounding the (Marsh Creek/ Drainage Ditch). The only access is off Plumwoode Court.

Accessibility Rating: N/A

Accessibility Improvements: N/A

Condition: N/A

Sleepy Hollow Park
Cornell Avenue
4.8 Acres

Sleepy Hollow Park is located in the Southeast portion of the Northern Section north of Fairway Villa Park across Cornell Avenue. A DTE Energy Utility Easement makes up much of the park.

Accessibility Rating: N/A

Accessibility Improvements: N/A

Condition: N/A

Woodland Heights Park
Sherry Drive
18.0 Acres

Woodland Heights Park is located Northern portion of the North Section. The Park contains a paved 1/3-mile trail and a playground.

Accessibility Rating: 2

Accessibility Improvements: Most surfacing and walkways meet ADA. Add accessible route and ramp to playground. Add a signed barrier free on street parking spot and curb cut.

Condition:

The park is relatively new as it was developed in 2010, continue maintenance and ADA additions.

COMMUNITY PARKS

Community-wide parks serve a broader purpose than neighborhood parks and provide a range of facilities and areas capable of supporting structured and unstructured community participation. These areas are typically between 30 and 50 acres in size and serve two or more neighborhoods and ½ to 3-mile distance. Facilities may include wooded or natural areas, picnic shelters and grills, bike or hiking trails and other semi-active and passive uses for large groups of people. They may also contain specialized recreational facilities such as swimming pools, community centers, and lighted ball diamonds. Community Parks should be easily accessible from throughout their service area. Currently there are two township parks classified within this category.

Arsenal Park (Syatrond Park)

Arsenal Road

19.8 Acres

Arsenal Park is located in the Southwest portion of the North Section. It contains 2 baseball fields, dugouts, a gravel parking area, and walkways. It is used primarily by the Brownstown Little League.

Accessibility Rating: 1

Accessibility Improvements: Provide paved barrier free parking spaces, accessible route to the dugouts.

Condition:

The backstop, hood and outfeed fencing are in good condition. The sod and surface need to be improved. The parking lot is asphalt millings that do not compact, so it is not a stable walking surface.

Township Campus
21311 Telegraph Road
Thorn Park
26.22 Acres

Prairie Creek Park
18.68 Acres

Event Center
20.94 Acres

The Township Campus is located in the Center portion of the Center Section. The Township Campus contains Thorn Park, Prairie Creek Park (across King) and the Event Center. The Brownstown Creek runs north to south between the Event Center and Thorn Park.

The Township Buildings on the site are Township Hall, Department of Public Works, and the Animal Shelter. The DPW maintains the Dog Park, also on the Township Campus. Within Thorn Park are the Community Center, two softball fields, a soccer field, two and a half tennis courts, a splashpad, a safety town, a playground, shelter, changing rooms and concessions. Prairie Creek Park has 2 Adult Softball Fields, a playground, and a Sport Court. The Event Center site has an outdoor event space, community gardens and paved walking trails that connect to Thorn Park and the Baldwin House Senior Living Center.

Accessibility Rating: 4

Accessibility Improvements: The entire campus is accessible

Condition:

Most of the Improvements to Thorn Park were completed over 10 years ago. The Improvements to Prairie Park were more recent, but the existing playground equipment from Thorn was relocated to Prairie. The Adult Softball Fields were recently completed but have significant drainage problems.

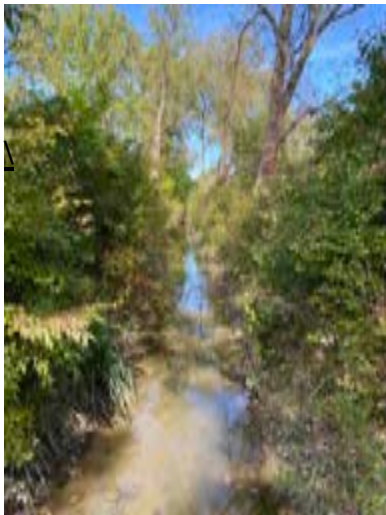

PRAIRIE PARK

PRAIRIE PARK

THORN PARK

EVENT CENTER

NATURAL RESOURCE AREAS

Natural resource areas are lands set aside for preservation of significant natural resources, landscapes, and open space. These sites are typically unsuitable for development but offer natural resource potential and can support recreational activities at a level that preserves the integrity of the natural resource. The location and size of these parks are largely governed by availability. The Township has one such facility.

Flowers Creek Open Space

Van Horne

15.4 Acres

Flowers Creek Open Space is located on the Southeast portion of the Northern Section. There are no developed facilities in the park. The open space is made up of leftover land from the Flowers Development and functions primarily as stormwater detention basin. Much of the park is under water after any storm event.

Accessibility Rating: N/A

Accessibility Improvements: N/A

Condition: N/A

LINEAR PARKS AND PATHWAYS

Pathways

Brownstown Township does not have an existing pathway system. Portions of the downriver linked Greenways run through the northern and southern portions of the Township.

The most recent Township Master Plan identifies areas of high priority for the township to develop a pathway system. Zoning Ordinances were modified to require eight-foot-wide asphalt paths along all major roadways within Brownstown Township. Residential development projects were also now required to provide sidewalks to safely link residents to main roadways, schools, and parks.

Downriver Linked Greenways Initiative

The Downriver Linked Greenways Initiative is a regional non-motorized pathway vision for the downriver region. It is envisioned that this regional pathway system will connect the seventeen downriver communities and Wayne County through a network of trails and greenways and will link into a regional and statewide system of greenways. The effort to produce a coordinated, functioning, non-motorized system is an essential factor in the quality of life for the downriver communities.

The Downriver Linked Greenways system consists of four primary segments:

1. Hines Drive / Rouge Gateway
2. I-275 Corridor
3. Metroparks / Flat Rock / Brownstown
4. I-75 / Detroit River

In addition to these four primary segments, the Downriver Linked Greenways will continue north through the city of Detroit, along the Detroit River, south to Monroe and

Toledo, and west to Ann Arbor. This route will connect local parks to the emerging regional and statewide network of trail systems.

DNR Recreation Grant Inventory

Brownstown Township has been fortunate to receive a total of five (5) grants through the Michigan Department of Natural Resources over the last 45 years. The grants assisted with acquisition and development of park property.

Some highlighted grants awarded include the 1985 grant to acquire 20.8 acres of land with frontage along the Brownstown Creek then the 1987 grant to obtain a one-acre parcel of land including a large farmhouse to further complete the. The Brownstown Acres Conservancy. In 1976, a grant was awarded to acquire 12 acres for outdoor recreation at the Brownstown Community Park. In 1990 Brownstown township sought to fund a Senior/Community Center to include. A grant was awarded that helped fund building construction and site improvements. All the above improvements are in good condition and are well used by the community.

An itemized Recreation Grant History is provided in this plan.

Accessibility Assessment

As part of the Recreation Inventory, M.C. Smith and Associates completed a review of the accessibility of each of the Township's recreation facilities using the ranking system recommended by the Michigan DNR. The following table summarizes this assessment and improvements needed to bring the parks in line with the Americans with Disabilities Act Accessibility Guidelines (ADAAG).

SCHOOL FACILITIES

Brownstown Township is served by three different school districts. The northern sector of the township is served predominantly by the Woodhaven-Brownstown School District, with a small percentage of children attending the Taylor School District located along the central northern Township boundary. The central and southern portions are served by the Gibraltar School District. A total of six public school facilities are located within the Township that contain various types of facilities utilized by sports teams, Township programs, and athletic organizations.

Traditionally, a spirit of cooperation has existed between the various school districts and

the Township and facilities are shared whenever possible. Township recreation programs receive secondary use of school facilities. School open space, gymnasiums, meeting rooms, athletic fields, and playgrounds all contribute towards meeting local recreation needs.

COMMERCIAL / PRIVATE FACILITIES

Brownstown Township has growing commercial enterprises offering a variety of local and regional recreational opportunities. Several privately-owned recreation facilities located within or near Brownstown provide recreational opportunities that complement those provided by the Township. Although these facilities are privately operated and often charge a user fee or require membership, they are considered in the plan analysis because they meet specific recreation needs.

Private Recreational Facilities

A summary of private facilities that serve area residents include bowling alleys, dance studios, golf courses, gyms, and fitness centers, pool halls, an archery club. There are also several recreational programs offered by the Brownstown Parks and Recreation Department. Non-residents may participate in programs and events but are subject to an additional non-resident fee. The following is a list of programs offered through the Parks and Recreation Department. A more detailed listing of program offerings can be found in the Department's activity brochures, printed each season.

Township Recreation Programs

Youth programs such as Softball, Downriver Ski Club, and Dance. Adult and Senior programs such as a Corn Hole League, Softball Leagues, Yoga, Quilting Groups, Dinner Dances, and Travel Clubs. There are also several special yearly events including Tree Lighting, Easter Egg Hunts, and Daddy/Daughter Date Nights. These are supplemented with activities sponsored by local area libraries, church organizations, school districts, and Wayne County parks.

Volunteer Organizations and Service Clubs

In addition to the above listed recreation programs, many other clubs and groups offer social, competitive, and child-oriented recreation activities. Many of these groups are volunteer organizations requiring payment of annual or monthly dues to support activities. These groups serve an integral role in recreation planning because they offer programs for residents that may not be offered by the Township. Examples of

volunteer organizations and service clubs in the Township include, but are not limited to: AYSO Youth Soccer, Brownstown Little League Youth Baseball, Brownstown Lions Club, and several VFW and UAW clubs.

COUNTY REGIONAL FACILITIES

There are several recreational opportunities located near Brownstown Township in addition to the three regional parks located within the Township. Further facilities are provided by Wayne County, the Downriver Linked Greenways Initiative, Huron-Clinton Metropolitan Authority, and the State of Michigan.

Wayne County Parks system is a regional system with several facilities within a short distance from Brownstown which provide athletic fields, golf courses, swimming pools, trails, playgrounds, and picnic shelters. In addition to the parks listed below, the County acquired Riverfront Park, previously owned by the Township. This site provides opportunities for boating, fishing, and picnicking.

A list of Wayne County Parks:

- Bell Creek (Redford Township)
- Chandler Aquatic Center (Detroit)
- Colonial Park (Inkster)
- Crosswinds Marsh (New Boston)
- Elizabeth Park and Marina (Trenton)
- Fort Wayne (Detroit)
- Inkster Valley Golf Course (Inkster)
- Lola Valley (Redford Township)
- Mariner Park (Detroit)
- William P. Holliday Forest and Wildlife Preserve (Westland)

Huron-Clinton Metro Parks (the Huron-Clinton Metropolitan Authority HCMA) is a regional park district that encompasses the counties of Wayne, Oakland, Macomb, Washtenaw, and Livingston. Since its inception in 1940, the HCMA has obtained over 20,000 acres of park land, all located in the metro Detroit region. The parks provide a variety of outdoor recreation and educational activities including picnicking, hiking, golf, biking, winter sports, golf, water-related activities, and special programs.

A list of HCMA Parks:

- Delhi (Ann Arbor)
- Dexter-Huron (Dexter)
- Hudson Mills (Dexter)

- Huron Meadows, Brighton)
- Indian Springs (White Lake)
- Kensington (Milford)
- Lake Erie (Brownstown)

In addition to the parks above, Lake Erie Metropark is located within the Township. This 1,600 plus park offers a variety of recreation opportunities including an 18-hole golf course, museum and nature center, wave pool, and marina and boat launches along its 3-mile shoreline.

Michigan State Parks provide opportunities to residents of Brownstown and the region. These state facilities provide a variety of activities including camping, picnicking, swimming, hunting, fishing, snowmobiling, hiking, cross country skiing, mountain biking, and horseback riding.

A list of Michigan State Parks:

- Island Lake Recreation Area (Brighton)
- Maybury State Park (Northville)
- Proud Lake Recreation Area (Wixom)
- Sterling (Monroe)
- Tri-Centennial State Park and Harbor (Detroit)

In addition, Pointe Mouillee State Game Area is a 4,000-acre park located partially in the Township. While the headquarters, fishing piers, boat docks and hunting areas are located in the Township, much of the park is in Berlin Township to the south.

Pointe Mouillee, one of the largest freshwater marsh restoration projects in the world, provides opportunities for boating, fishing, hunting, hiking, and bird watching.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 5

PLANNING AND PUBLIC INPUT PROCESS

RECREATION PLANNING

Recreation planning plays an important role in maintaining the quality of life in a community. If a community is to provide effective recreational opportunities, it needs a way of identifying and solving current problems and anticipating future needs. Recreation planning is one means of obtaining a perspective on these problems; developing realistic alternatives; formulating goals, policies, and recommendations for public and private decisions; developing criteria to measure change; and involving people in the planning, design and decision processes.

This Parks and Recreation Plan presents an evaluation of the Township's recreational needs and opportunities. It considers the existing amenities in the Township, the current and anticipated demand for additional or improved facilities, and the means for providing those facilities.

Since the previous Parks and Recreation Plan, developed in 2017, the Township has continued to make improvements to its park and recreation facilities.

This plan is to serve as a guideline for directing the Township in the operation and maintenance of existing and future facilities and programs to meet the recreational needs of its citizens. The plan summarizes long-term recommendations intended to guide the development of recreation opportunities and describes an action and capital improvement program for implementation over the next five years.

PLAN PROCESS AND DEVELOPMENT

This 2022 Community Park and Recreation Plan was developed by the Township, with the assistance of MCSA Group, Inc, a park and recreation planning consultant. Township staff

met regularly with representatives of MCSA Group, between September 2021 and November 2021 for the development of this Plan.

Criteria considered and evaluated for plan development evolved from the examination of goals and recreation standards determined through a wide variety of input sources. This information was collected from the inventory and review of existing facilities; the identification of recreation needs and deficiencies; public opinion; current statewide recreation issues and priorities; and future expectations.

Public input was sought throughout the process by means of four (4) Public Workshops held to solicit public desires and concerns regarding parks and recreation. The meeting was advertised on the Township's website, social media and in the local media. The meeting schedule was as follows. A summary of the comments and discussion items can be found in the appendices of this report.

October 20, 2021	Public Workshops
November 10, 2020	Public Workshops
January 17, 2022	Public Hearing

In addition, the Township undertook a survey of Township residents. The survey was available on the internet via Survey Monkey, as well as printed copies at the Township Hall. A total of 108 surveys were completed. A copy of the survey and a summary of the results are included at the end of this section.

The most popular activities that the respondents would like to see expanded in the parks were playgrounds, non-paved walking/running trails, picnic facilities, pickleball courts, cricket, natural areas and open spaces.

Of the Township recreation locations, the Township Campus, Woodland Heights, Prairie Creek Park and Hunter Park are the most frequented.

The barriers that kept residents from using the parks include parking, not enough amenities, and familiarity with the park locations.

Another important part of the planning process was the development of concept plans for each of the major park properties. These were presented at the public meeting and were

made available for viewing on the Township's website. The plans were generally well received. The Township responded to comments made and refined the plans as necessary.

Comments from the public meeting and survey were incorporated into a final draft of the Plan, which was made available to the public for one month commencing on December 1, 2021 to solicit further comments prior to a public hearing and plan adoption.

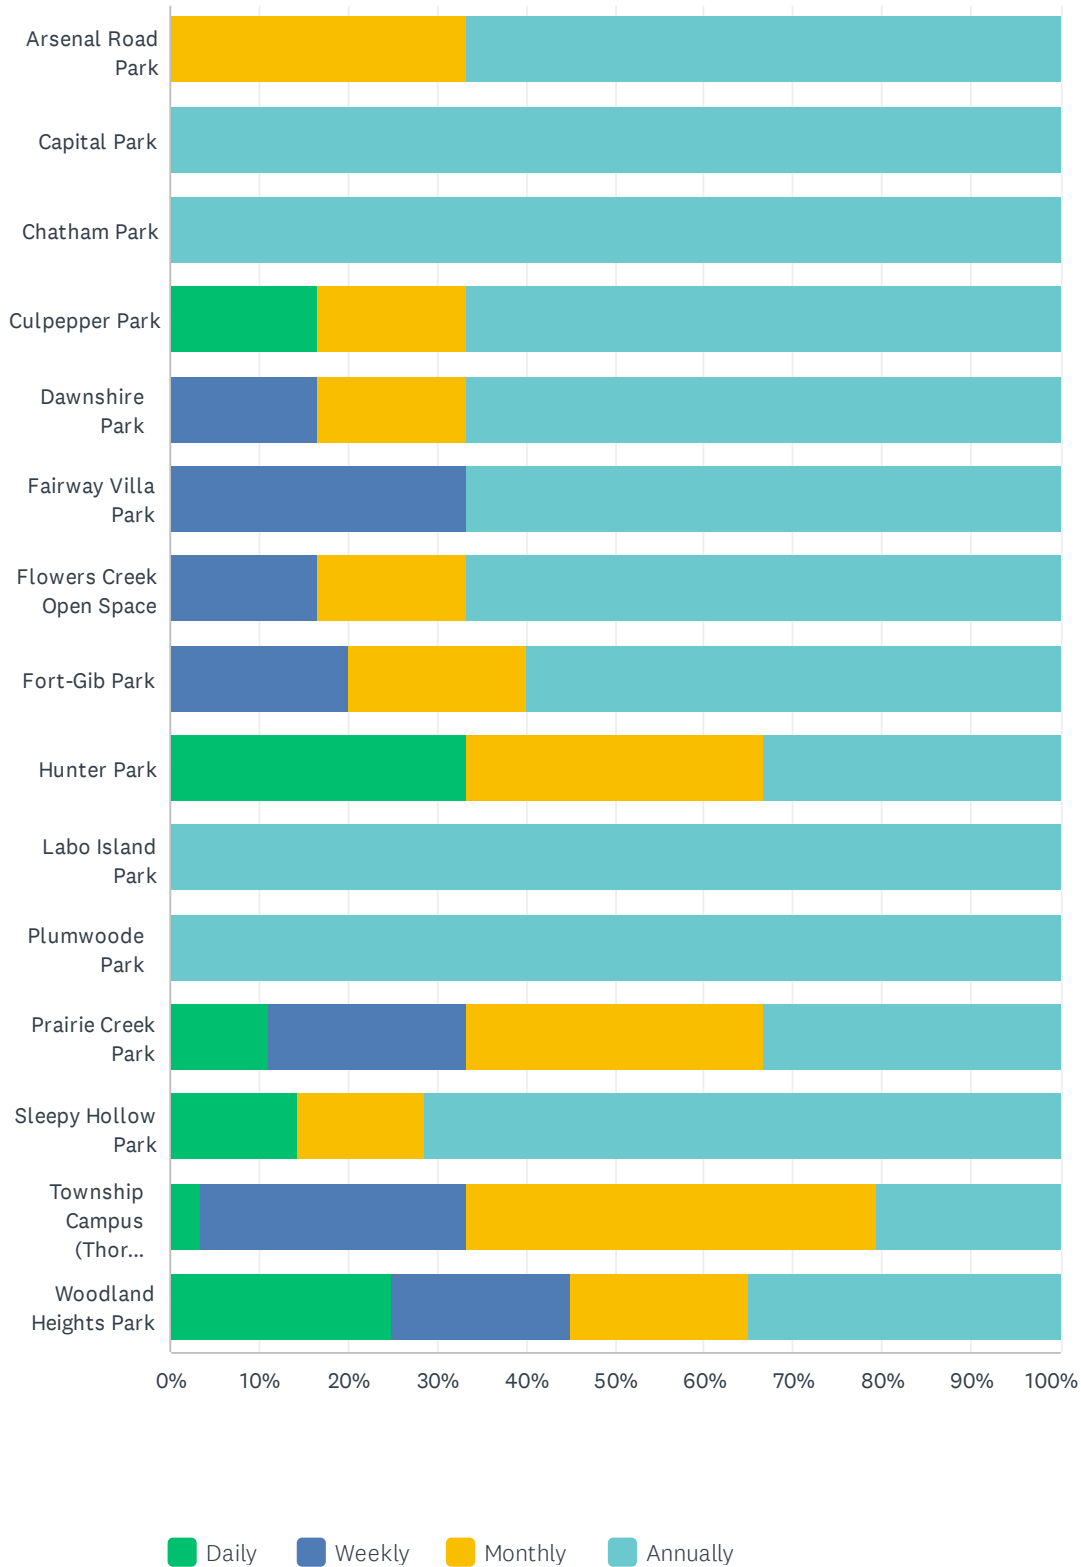

Following the one-month review period, the final plan was presented during a public hearing to the Recreation Commission on January 6, 2022. The Resolution to formally adopt this plan can be found in Section 9.

14	the parks i frequent seem crowded, not many know about other parks / don't frequent. small events at local parks would bring more citizens out and diversify how the parks are utilized. partnerships with local business would help. also, THE SPEED LIMITS NEED TO BE LOWERED. No one wants to walk / ride their bike to an event with cra-cra people speeding everywhere. Too many persons going through the area will cause congestion and drive citizens away that have means to move. How are we to maintain quality (tax rev) without proper quality of life? 25	I wasn't even aware of where all the facilities are or what is offered	10/18/2021 9:57 PM
26	Lack of access via non motorized path or sidewalk	10/18/2021 8:28 PM
27	The dog park is very small with little usage. We came from Indianapolis with many dog park options and participation. The Brownstown park is not enjoyable and I can't even pay to join any of the surrounding municipal dog parks because they don't have an agreement with Brownstown.	10/18/2021 7:19 PM
28	Unaware of most of the parks. More info on website.	10/18/2021 7:03 PM

1	I feel that the Hall in the Building is under utilized. It is big enough to have three pickleball courts, or two PB courts, couple of ping pong tables and or couple of Billiard tables. Here, all year activities is possible. Specially in Winter times. The conversion costs would be minimum compared to a new building.	11/11/2021 4:05 PM

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 6

NEEDS AND DEFICIENCIES

This section of the Plan identifies recreation deficiencies determined through a variety of means. Study methods include comparison to recreational standards for acreage and facilities, geographic distribution of existing facilities, direct input from Township staff and representatives, and public input and participation. While each of these methods has its limitations, using a combination of methods will yield a more accurate assessment of recreational needs and deficiencies. The following is a brief description of each of the methods used.

RECREATION STANDARDS

While only a guide, recreation standards provide a benchmark for evaluating the relative adequacy or inadequacy of the Township's recreation system. This Plan has used as a guide the 1983 Recreation, Park, and Open Space, Standards and Guidelines and 1995 Park, Recreation, Open Space and Greenway Guidelines published by the National Recreation and Park Association.

Typical recreation standards establish a certain number of activity-specific recreational facilities per 1,000 of population (e.g. 1 tennis court per 2,000 persons). Other standards establish a certain number of acres per 1,000 of population for different types of park facilities, such as neighborhood, community and regional parks. These standards are adapted to reflect the Township's character and compared with the Township's existing and projected population. This Plan will combine both approaches to ascertain deficiencies in recreational facilities and acreage. The 2018 U.S. Census Bureau population estimate was used for the purposes of this study.

There are two basic types of recreational experiences: "active" and "passive." "Active" recreation requires space and facilities capable of accommodating exertive activities. Such facilities include: sports fields, play apparatus areas, open areas, special facilities, such as pools and court areas, and areas for organized activities. On the other hand, "passive" recreation requires little more than space and furniture for quiet, non-exertive activities for limited numbers of users.

Recreation areas must provide for both types of use and preferably include a variety of opportunities for each to respond adequately to a wide range of interests and age groups.

Parks are generally classified by purpose and area per population served. They range in type from mini-playlots and green areas to large regional and national parks.

The categories used for this plan will be as follows:

1. Neighborhood Parks
2. Community Parks
3. Natural Resource Areas
4. Trails

RECREATION STANDARDS FOR ACREAGE

1. Neighborhood Parks and Schools

Description - Neighborhood parks serve individual neighborhood populations as determined by the distance that can easily be traveled by local users for relatively short periods of recreation. Facilities provided in these parks are generally active in nature and include multipurpose open play areas for pick-up games, play apparatus, court areas, landscaping, site furnishings and possibly a shelter. Special areas for bike riding or specific court games may also be provided. Activities for all seasons should also be included.

Service Areas - The area served by neighborhood parks is generally considered to be a one quarter (1/4) mile to one half (1/2) mile radius in size and should be uninterrupted by non-residential roads or other physical barriers.

Neighborhood Park Acreage Standards - Nationally accepted standards for neighborhood parks recommend one of two (1-2) acres per 1,000 of population with five (5) acres as a minimum size and five to ten (5-10) acres optimal. It is recommended that the minimum of two (2) acres per 1,000 population be used as a guide for site selection.

Existing Recreation Acreage

The Brownstown Township currently has (11) parks that would fit into the neighborhood park definition.

<u>Name</u>	<u>Existing Site Acreage</u>
Capital Park	4.2
Chantham Park	13.7
Culpepper Park	0.4
Dawnshire Park	5.2
Labo Island Park	0.5
Fairway Villa Park	6.7
Fort-Gib Park	4.0
Hunter Park	6.5
Plumwoode Park	3.7
Sleepy Hollow Park	4.8
Woodland Heights Park	18.0
Total	67.7

Needs and Deficiencies: The table below compares the 2019 Township population to the recreation standard of two (2) acres per 1,000 persons.

<u>2019 Population</u>	<u>Neighborhood Rec. Acreage Required</u>	<u>Neighborhood Rec. Acreage Available</u>	<u>Deficiency/ Surplus</u>
32,081	64.16	67.7	3.53

For the 2019 population, there is surplus of 3.53 acres for neighborhood recreation in accordance with the recreational standards. The above table indicates that the Township currently has a surplus of neighborhood recreation areas. The National Recreation and Park Association recommends a total close-to-home space (Mini-Parks, Neighborhood Parks and Community Parks) of 6.25 to 10.5 acres per 1000 population.

2. Community Parks

Description - Community-wide parks provide a range of facilities and areas capable of supporting organized community participation programs that would not be appropriate in neighborhood parks because of their average size or traffic volume generated. Facilities should be centrally located, diverse enough to accommodate all age groups for both active and passive experiences and organized so that compatible uses relate to one another. Adequate parking and vehicular circulation is also important, since park users will

generally arrive at these parks by vehicle. Lighted use areas significantly increase the recreational value of parks of this type. Typical facilities recommended for community parks include ball fields, open use areas, tennis courts, picnic areas, play apparatus areas, restrooms and shelters. Additional special facilities could include band shells, amphitheaters, swimming and wading pools, community-meeting buildings, skating facilities, bicycle courses and nature study areas.

Service Area - The area served by community-wide parks varies significantly from one municipality to another because of the distribution of population and related factors. However, a community park usually serves two or more neighborhoods and ½ to 3-mile distance. This distance will be considerably greater for many years in the Holland area because of the agricultural character and attendant scattered development.

Community Park Acreage Standards – The size of a community park varies according to the desired uses but is usually between 30 and 50 acres. It is recommended that a range of five (5) to eight (8) acres per 1,000 population be used as a standard basis for development.

Existing Community Recreation Acreage – Brownstown Township has two (2) parks that function as community parks.

<u>Name</u>		<u>Existing Site Acreage</u>
Arsenal Road Park (Systrand Park)		19.8
Township Campus		
Thorn Park		26.22
Prairie Creek Park (Little League Fields)		18.68
Event Center		20.94
Total		85.64 acres

Needs and Deficiencies: The following table compares the 2018 Township population to the recreation standard of eight (8) acres per 1,000 persons.

<u>2019 Population</u>	<u>Neighborhood Rec. Acreage Required</u>	<u>Neighborhood Rec. Acreage Available</u>	<u>Deficiency/ Surplus</u>
32,081	256.65	85.64	-171.01

Comparing the existing Community Park land to current population figures, there is a deficiency of land devoted to community recreational use. The two Township Community

Parks are all located in the Northern Section of the Township. There is a lack of Community Parks in the Central and Southern Sections of the Township.

3. Natural Resource Areas/Open Space

Natural resource areas are lands set aside for preservation of significant natural resources, remnant landscapes, open space, and visual/aesthetic buffering. These sites are typically unsuitable for development but offer natural resource potential and can support recreational activities at a level that preserves the integrity of the natural resource. The location and size of these parks are largely governed by availability.

Existing Natural Resource Area Acreage – Brownstown Township currently has one property that fits into this category.

<u>Name</u>	<u>Existing Site Acreage</u>
Flowers Creek Open Space	15.4
Total	15.4 acres

Needs and Deficiencies: There are no recognized acreage standards for natural resource areas. It is important to identify and protect natural resources under the control of the Township. It is also important to provide improved access and facilities, while maintaining integrity as a wildlife habitat.

There are no developed facilities in the park as its primary purpose is for stormwater detention and water levels vary significantly throughout the year. The Park provides open space for the neighborhood.

4. Trails

Description – There are a number of different types of trails that can provide both transportation and recreation opportunities. Trails may be located within parks, on an independent right-of-way, or within the road right-of-way. Connector Trails are defined as “multi-purpose trails that emphasize safe travel for pedestrians to and from parks and around the Community” (J.D. Mertes and J.R. Hall, Park, Recreation, Open Space and Greenway Guidelines, 1995). These trails are generally located within the road right-of-way and can be divided into two types. Type I has separate paths for different user types, such as pedestrians and bicyclists. Type II has mixed uses and is suited to lighter use patterns.

Existing Facilities- The Township does not have a non-motorized trail system . The only pathway system in the Township is the Downriver linked Greenways. The segments include:

Northern Section: King Road to Telegraph to Allen and north to Sibley; Van Horn Road west to Hall Road, and north along Hall Road to West Road; west on West Road to Gudith.

Southern Section: Along the Huron River, in the Lake Erie MetroPark and along Woodruff Road.

Needs and Deficiencies - There are no pathways that connect the Townships Sections. Trail development, both within parks and linking parks together, is a high priority. Although the Township’s sidewalk plan is well developed, trails within parks are lacking and there are few loop trails of any distance suitable for multi-use such as rollerblading and cross-country skiing.

RECREATION STANDARDS FOR ACTIVITIES / FACILITIES

A comparison of activity-specific recreational facilities within the Township with recreation standards indicates that the Township contains many of the recreational facilities desirable for the current and future population, but deficiencies are evident in some areas. While the standards for comparison address the quantity of facilities generally desirable for several persons, they do not address quality or location concerns.

RECREATION FACILITIES SUMMARY

Brownstown Township takes pride in its park and recreation facilities and demonstrates good stewardship of its natural resources. While substantial improvements have been achieved over the last 10 years, a variety of improvements are recommended to fully utilize the Township’s recreational land and improve accessibility for all users.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 7

GOALS AND OBJECTIVES

Brownstown Township has developed the following goals and objectives for Parks and Recreation facilities and programs. These goals and objectives are based upon the recreation inventory and needs assessment, the Community Survey and direct input from citizens, elected and appointed Township officials and Township staff.

The goals are long-range, broad in scope and flexible to accommodate future change. Objectives are the actions the Township intends to follow to achieve the stated goals. The objectives are specific and intended to direct program and development decisions to be made during the next five years. Goals and objectives are flexible enough to reflect changing attitudes and opportunities as may present themselves. Time and attitude changes can impact specific options. It is therefore essential for the Township to be responsive to its citizens and evolving needs.

Goal No. 1

Offer high quality parks, recreation facilities and open space areas in the Township that are well-maintained and ensure a pleasant experience for users.

Objectives

- Improve barrier-free accessibility of the Township's Park and recreation facilities through accessible pathways and upgrading equipment to meet accessibility standards.
- Pursue the paving of walking trails to improve accessibility. Provide additional seating areas at Township parks.
- Develop a program of consistent signage, lighting, benches, and waste receptacles at all Township parks, compatible with other Township facilities.
- Maintain and update park equipment and facilities as needed, including playground equipment, hard pavement surfaces, and landscaping.

Goal No. 2

Provide parks and recreation facilities that meet the diverse needs and interests of the community

- Evaluate potential new park development opportunities for needed and desired active and passive recreation facilities such as athletic fields, dog parks, skate parks, playground equipment, and seating areas.
- Require new residential projects to include and develop minimum areas for active and passive recreation to serve future populations.
- Continue to study the feasibility of a new multi-purpose community center and library within the Town Center.
- Monitor the use of athletic fields and facilities to determine additional needs.
- Create recreation opportunities that go beyond the traditional team sports such as educational components, individual sporting pursuits, and training/self-improvement courses.
- Maintain open communication with other recreation providers for opportunities to joint venture on larger improvement projects and regional recreation demands.
- Support the acquisition and development of recreation land as a conservation measure to preserve specific natural resources.

Goal No. 3

Provide a balanced system of park and recreation facilities in the township with opportunities and programs for residents of all ages and abilities.

Objectives

- Continue to maintain the high quality of existing parks.
- Acquire and develop land for parks to serve existing and future residents.
- Plan and develop park areas to offer passive as well as active opportunities.
- Rehabilitate and improve existing park sites to meet and exceed all safety and accessibility regulations.
- Continue to provide quality programs that will allow recreation to be a fulfilling experience and promote healthy lifestyles.
- Ensure a variety of programming to provide opportunities for all residents, regardless of race, income, and ability.

Goal No. 4

Offer a variety of recreation programs and events that promote a high quality of life for residents and encourage interaction of its residents.

- Coordinate with other recreation providers to prevent duplication of services and avoid unnecessary competition.
- Monitor recreation programs to ensure they meet the desires of residents and accommodate enrollment figures.
- Evaluate programming fees to create a balance between covering costs while maintaining affordability for area residents.
- Keep abreast of the latest trends and preferences in recreation as well as local desires.
- Expand senior programs to meet their unique social and recreation interests.

Goal No. 5

Expand the diversity of recreation facilities available to offer year-round opportunities to meet current and future demand.

Objectives

- Meet the demand for active sports facilities to support the Township's recreational programming.
- Expand opportunities for winter recreation activities.
- Expand opportunities for passive recreation and un-programmed activities, such as picnic facilities, walking trails, fishing, and wildlife viewing.

Goal No. 6

Focus on programs and policies for further expansion of the park system through continued acquisition.

Objectives

- Secure land for recreational use in areas of residential growth.
- Strive to maintain and improve the quality and character of valuable natural resources for current and future generations through land acquisition.
- Acquire land adjacent to existing park properties to further increase the recreational facilities offered.

Goal No. 7

Develop a comprehensive pathway system that increases accessibility to key local and regional destinations. Strive to connect recreational facilities to schools, residential areas and to one another with non-motorized trails that provide safe, and accessible recreational experiences.

Objectives:

- Link Park facilities and key points of interest, such as the Town Center, schools and neighborhoods to create a linear park system throughout the Township.
- Develop pathways for multiple users including walkers, joggers, runners, rollerbladers and bicyclists. Increase accessibility within Township parks by creating internal pathways at applicable parks.
- Utilize road, utility and railroad corridors to provide off-road pathways.
- Consider opportunities to incorporate the Township pathway system into a regional network.
- Encourage walking and bicycling as alternative transportation options to help reduce emissions and improve the environment.
- Maintain and continue to expand existing bike path and sidewalk system.
- Develop trail systems within existing park lands.
- Construct additional bike path segments from existing system to all future acquisitions.

Goal No. 8

Promote and maintain strong working relationships based on coordination and support with the schools, surrounding communities and bodies of government, and public and private organizations.

Objectives

- Work with, encourage and support all community, school system and municipal groups, organizations, and agencies to promote and expand recreation opportunities and programs for all age groups in all areas of the Township in an efficient and coordinated manner.
- Work cooperatively with adjacent communities to provide joint facilities and connections between park systems.
- Mutually utilize recreation facilities and resources to minimize deficiencies.
- Encourage the expansion of private recreational development to supplement public development and programs.

Goal No. 9

Effectively and efficiently implement the recommendations of this plan.

- Coordinate the Action Program with the Township's capital improvement program.
- Work with the Planning Commission and Township Board to consider parks and recreation in development proposals and Township plans.
- Review the Recreation Master Plan annually to establish priorities and responsibilities with Park Board.
- Continue to aggressively explore grants and alternative funding opportunities for improvement projects.

BROWNSTOWN TOWNSHIP COMMUNITY PARKS AND RECREATION PLAN SECTION 8

ACTION PROGRAM AND CAPITAL IMPROVEMENT SCHEDULE

The Action Program and Capital Improvement Schedule for Brownstown Township states the proposed course of acquisition and development action that will be taken over the next nine-year period. The Goals and Objectives serve as the guidelines for the development of the Action Program. The Capital Improvement Schedule will focus on the needs identified in the Action Program and will project potential expenditures for the nine-year action period on a year-by-year basis, beginning in 2022 and extending through 2030. Extending the Capital Improvement Schedule beyond the five-year life of the plan allows the Township to continue to budget for up-coming projects.

The Action Program focuses on the reduction of current deficiencies and the expansion and improvement of facilities in a manner that not only meets current needs but diversifies the quantity and quality of recreational opportunities within the Township. This Parks and Recreation Plan identifies these needs in general terms in the Recreation Needs and Deficiencies section; the Action Plan describes specific actions to be taken to address these needs; and the Capital Improvement Schedule specifically itemizes those projects which will be most feasible during the next eight years. The proposed schedule will allow for flexibility as funds become available and as opportunities are presented. Proposed actions involve improvements to existing facilities and the addition of new facilities and programs as outlined below.

This action program looks at some of the potentials that might evolve in the next eight years, but also looks beyond to future years. Some of the acquisitions listed may not be necessary for nine years or more but should be accomplished as opportunities occur, to place the land necessary for future generations in the public trust. A degree of flexibility should be maintained to take advantage of opportunities as they present themselves, which will revise and refine these actions based upon both funding opportunities and community opinion.

Capital Improvement Schedule

As stated in the Action Program, improvements and development will occur as funds and opportunities evolve. Assistance will be solicited from all available sources and will include both physical and financial support. Local businesses, service organizations, land developers, governmental agencies and the school district will be solicited for monetary and material support. The Township will also seek funding assistance from all available sources such as trusts, charitable foundations, and all Federal and State funding programs.

The following schedule is a breakdown of the anticipated projects and projected funding for the next nine years beginning in 2022. As stated in the Action Program, improvements and development will occur as funds and opportunities evolve. All projections are based upon year 2022 costs and will be refined as the program progresses and the scope of work is determined. Changes in the program may occur if projected funding levels increase or decrease, but it is anticipated that the changes would be related more to adjustments in the time schedule rather than specific projects. Proposed projects will be scaled back as necessary if funding goals are not met.

CLERK:

REQUEST TO APPROVE FISCAL YEAR 2021 ENCUMBRANCE LISTING:

Motion of Eberth, supported by Killian, to approve Fiscal Year 2021 encumbrances for capital expenditure purchases and Township projects that were budgeted for in 2021 but the items were either not received by December 31, 2021 or work was not performed and completed by December 31, 2021. These open line item expenditures totaling \$103,706.68 will be rolled over into the Fiscal Year 2022 budget and amended accordingly. All voting aye.

BUDGET AMENDMENT 2022-02:

Motion of Eberth, supported by Brinker, to approve Budget Amendment 2022-02 to reallocate budgeted funds to cover the restart of the Recreation Ski Club Program. This program is self-sufficient and would therefore have no impact on fund balance. Funds in the amount of \$38,000.00 will be allocated to cover the cost offset by \$38,000.00 of revenue to be collected. All voting aye.

BOARD INFORMATION:

Motion of Allen, supported by Killian, to accept the Clerk's report which consists of disbursements. All voting aye.

TREASURER:

DISBURSEMENTS: \$1,462,012.95

Motion of Berecz, supported by Brinker, to approve disbursements as follows: General Fund Disbursements in the amount of \$208,933.43; Fire Protection in the amount of \$15,538.27; Police Fund in the amount of \$24,766.97; Greenbelt in the amount of \$18.85; Downtown Development in the amount of \$8,649.81; Sewer Fund in the amount of \$29,362.24; Water Fund in the amount of \$307,633.28; Tax Collection in the amount of \$40,892.69; bringing the sub-total amount of disbursements to \$635,795.54. There were also two payroll transfers listed on the report, one dated January 7th in the amount of \$18.03 for Third Party Sick Pay and one dated January 7th in the amount of \$826,199.38 for Regular Payroll; bringing the total amount of disbursements to \$1,462,012.95. Roll call vote: Allen, aye; Berecz, aye; Brinker, aye; Chapman, aye; Eberth, aye; Killian, aye; and Linko, aye. Motion carried.

BOARD INFORMATION:

Motion of Allen, supported by Killian, to accept the Treasurer's report which consists of the Treasurer's Office Investment Report for December 2021. All voting aye.

COMMUNITY SERVICES:

BOARD INFORMATION:

Motion of Eberth, supported by Chapman, to accept the Community Services report which consists of the Planning Commission Minutes from December 13, 2021, Downtown Development Authority Minutes from October 21, 2021, December 2021 Monthly Totals, and December 2021 Zoning Enforcement Log. All voting aye.

RECREATION:

BOARD INFORMATION:

Motion of Eberth, supported by Berecz, to accept the Recreation report which consists of updates regarding ongoing and upcoming 2021-2022 Winter Programs and Senior Programs. Also, restoration of the Recreation garage is ongoing. Repairs including replacing insulation, painting, power washing, rewiring electrical, and replacing the garage door motors have been completed so far. All voting aye.

PUBLIC WORKS:

APPROVE MDHHS LOW INCOME HOUSEHOLD WATER ASSISTANCE PROGRAM:

Motion of Eberth, supported by Chapman, to approve to sign an agreement for the Michigan Department of Health and Human Services (MDHHS) Low Income Household Water Assistance Program, which would be effective through September 30, 2023. All voting aye.

TOWNSHIP MANAGER UPDATE:

Township Manager Peters provided a brief update about several items that may be of interest to Brownstown residents:

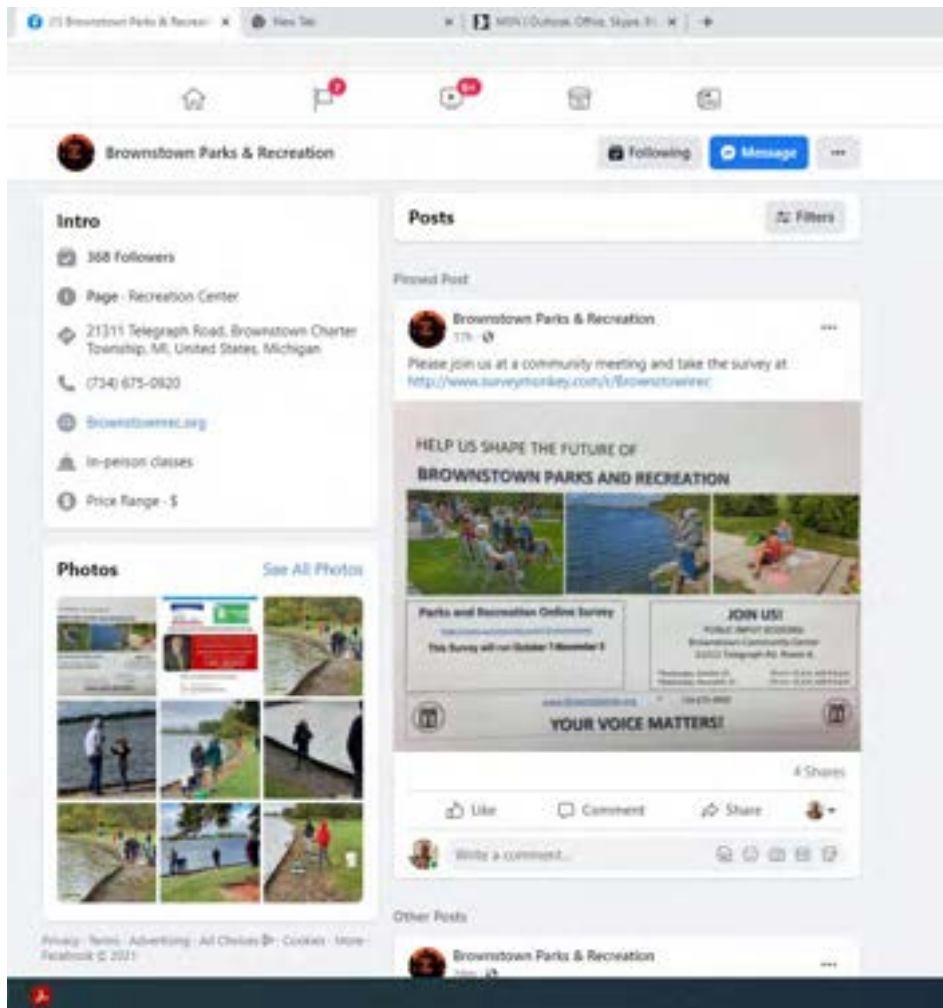

- The United States Supreme Court recently ruled against OSHA's emergency temporary standards in regards to vaccination of employees and COVID-19 testing requirements for employers with 100 or more employees. The Township continues to closely follow this process for any further changes to policies and standards.
- The United States Department of Treasury's final ruling in regards to spending funds allocated from the American Rescue Plan Act (ARPA) allows more flexibility under the category of expenses to make up for lost revenue. The Township is beginning the process of prioritizing the funding to projects that would be beneficial to both the Township and its residents.
- The Brownstown Today magazine, which was previously approved by the Township Board on September 20, 2021, is anticipated to launch March of 2022. The Township is hosting a kick-off the week of January 24th at the Brownstown Event Center.
- In recognition of today's holiday, Martin Luther King Jr. Day, the life and legacy of Martin Luther King Jr. was acknowledged. It serves as a reminder to embody a character that seeks justice, peace, and serves others.

ADJOURNMENT:

Motion of Eberth, supported by Killian, to adjourn the regular Township board meeting at 7:23 p.m. All voting aye.

Respectfully submitted,

Maureen Brinker, Clerk
Charter Township of Brownstown
MB/anf

maintenance for the dog park is not budgeted for at all (except for mowing).

The current dog park is used by the residents as a park by the residents, particularly **senior citizens and those who physically cannot use the park trails** due to physical limitations, to socialize with each other and get exercise while at the same time exercising their pets. Many other users are full time workers who need a safe place to exercise their pets before or after work.

The survey results show **almost 17% of respondents want the dog park expanded**, yet the dog parks are not even listed as a department or under parks.

Please 1) revise the plan to include a specific budget for adequate dog park maintenance and

2) to explore expanding the existing dog park or creating a larger dog park.

Brownstown Township residents should have an outstanding dog park, like those in Woodhaven and Southgate have.

3) Also, in the **Volunteer section**, please add the animal shelter/animal control volunteers who volunteer to clean the shelter, feed and care for the homeless animals housed by the township, transport the animals to veterinary visits, raise funds for food and medical care, advertise the pets for adoption, hold adoption events, and exercise the pets 365 days per year.
