RE: 2020 Crescent beach Stormwater Improvements
City of Algoma, Wisconsin

Dear Amber:

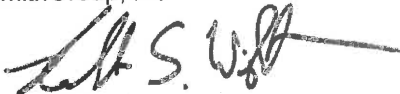

Bids for the above referenced project were opened on May 15, 2020. Four bids were received with the resulting bid tabulation enclosed. Bids Ranges from the low of \$252,004.25 to a high bid of \$418,924.75. The low bid of \$252,004.25 was less than the Engineer's Opinion of Probable Construction Cost of \$290,000.

We have enclosed the bid tabulation for your review and files. Peter's Concrete from Green Bay, Wisconsin was the apparent low bidder at \$252,004.25. The bid included a bid bond for 10% and acknowledged both Addenda. While we do not have past construction history with Peter's Concrete in completing construction and improvement projects in the area, we do understand that the City has had recent and positive experiences with them as a contractor. We would rely on the City's experience with their work and recommend award based on that information.

As with all contractors, we always suggest that you consider evaluating Peter's Concrete's financial status and past project references prior to award and other information submitted to you as required by the Specifications.

Sincerely,

SmithGroup, Inc.
