Dear Water Customer:

This notice is to inform you of your responsibility to ensure the quality of water throughout your building(s). Please note that the water supplied by the College Township Water Authority meets or exceeds all DEP regulations but if your building and/or businesses have been closed for weeks or months resulting in a reduction of water usage, the potential exists for water to become stagnant inside the building plumbing. This water may become unsafe to drink or otherwise use for domestic or commercial purposes.

EPA recommends that building owners and managers take proactive steps to protect public health by minimizing water stagnation during closures and take action to address building water quality prior to reopening. Information can be found on the CDC website (<https://www.cdc.gov/coronavirus/2019-ncov/php/building-water-system.html>) or you can follow the link posted on the Township's website at [www.collegetownship.org](http://www.collegetownship.org) under the 'Departments' tab.

Sincerely,

College Township Water Authority
