

El Dorado County Gotnet Parcel Lookup

The El Dorado County Gotnet Parcel Lookup system allows you to look up parcel information by APN (parcel number) or street address.

1. Gotnet is located at:
<https://see-eldorado.edcgov.us/ugotnet/>
2. Click I Agree when the disclaimer comes up, then OK to proceed with looking up your parcel

3. To search for your parcel, click the magnifying glass in the toolbar

4. Click the By Value tab, if it isn't already selected

5. Enter the first nine digits of the parcel number no dashes as shown above. Example, 006-380-009-000 would be entered as 006380009.

The screenshot shows the 'Search & Buffer' window with the 'By Value' tab selected. The 'Search layer' dropdown is set to 'Parcels'. The 'Parcel Number' field is labeled 'Enter APN #' and contains the value '006380009', which is highlighted with a yellow box. Below the input field is an example: 'Example: 325120033'. A 'Search' button is visible, along with a checkbox for 'Limit search to map extent'.

Or, change the search layer drop down to search by address

The screenshot shows the 'Search & Buffer' window with the 'By Value' tab selected. The 'Search layer' dropdown is set to 'Street Address', which is highlighted with a yellow box. The 'Address' field is labeled 'ENTER Street # and Name' and is empty. Below the input field is an example: 'Example: 330 FAIR LN'. A 'Search' button is visible, along with a checkbox for 'Limit search to map extent'.

When searching by address, it is a good idea to just include the street number and street name without using the Lane, Way, Place, etc.

6. The parcel will come up when you click search and the Results window will show the Village, Unit, and Lot Number in the Legal Description line.
