SCHEDULED BUSINESS

1. Discuss Audit finding regarding Cemetery Trust Investments.

Councilman Fiedler moved to open the floor for the discussion regarding the Audit finding concerning the Cemetery Trust Investments. The motion was seconded by Councilman Browne.

Ms. Duke addressed the Council regarding the Audit finding about the Cemetery Trust Investments. She explained that the finding had to do with the fees and that those fees could not be paid with the interest earned on the investments. She stated that the Auditors had not been able to obtain verification that the investment funds were held in the City's name. She reviewed the various bank statements for the Council. Ms. Duke commented that the Council had suggested that the Care Funds be held locally and she reviewed the state laws governing Care Funds. She stated that by statute the principle of the grave openings and sales could he used for Capital improvements and the interest could be used for care and maintenance of the cemetery. She explained that the information she was able to gather indicated that any changes to the Cemetery Care Fund would have to go through the courts.

There was a brief discussion among the Council that included Ms. Duke and Mr. Ervin regarding the information that Ms. Duke had furnished to the Council, how the Cemetery Advisory Board felt about the handling of the funds, having the City Attorney review the trust documents, the fees that were associated with funds held in a trust and clarifying that the money was not lost but it was not being held in the City's name.

Councilman Mason congratulated Ms. Duke for finalizing an Audit finding. There was no action taken on this item.

2. Discussion of Performance Contracting Program for the City's water meter system upgrade with Siemens Industry, Inc.

Councilman Fiedler moved to open the floor to discuss the Performance Contracting Program for the City's water meter system upgrade with Siemens Industry, Inc. The motion was seconded by Councilman Condit.

Mr. Stasiak commented that a couple of weeks ago the Council had a presentation by Ron Roller with Siemens to replace the City's water meters using a lease purchase performance contract. He stated that the presentation estimated that the City was experiencing a 10% loss in the water sales because of the inaccuracy of the current meters. He commented that the company was at the point in the process where a letter of intent was needed to proceed with the survey. He added that if the letter of intent was given they would pull one hundred (100) meters around the City to test and then present their survey results and contract to the City. Mr. Stasiak stated that there would be a \$50,000.00 cost if the City did not continue with the project at that time but if the City chose to continue that amount would be rolled into the total cost of the project. He commented that there were a couple of issues with this project, which were; 1. This was not part of the budget, and 2. The City was limited to \$500,000.00 in borrowing. He added that this item and the next were very closely connected.

At that time Mayor Priddle asked the City Attorney if the Council could open the next item so both items could be discussed simultaneously. Mr. Ervin stated that it would be fine to have both items open for discussion at the same time.

3. Discussion of possible financing options for the Performance Contracting Program for the City's water meter system upgrade with Siemens Industry, Inc.

Councilman Browne moved to open for discussion possible financing options for the Performance Contracting Program for the City's water meter system upgrade with Siemens Industry, Inc. The motion was seconded by Councilman Fiedler.

Mayor Priddle stated that there were a couple of points, which were 1. Each of the meters was approximately \$300.00 each and with the \$50,000.00 audit the City would be getting about \$30,000.00 in equipment, 2. This would be putting most of the cost onto the citizens and 3. Technologically this would be better for customer service.

There was a lengthy discussion between the Council, Mr. Ervin and Mr. Stasiak concerning the Charter requirements when incurring debt, how if affected the Public Works Authority and the City, how the water billing is processed now, how this upgrade if implemented could affect the citizens, the technological improvement this could be and the other major problems that needed to be addressed. The Council also discussed how the Siemens Industry company would be around in the future and this project could be revisited when the City was better prepared to move forward with this type of project.

Mayor Priddle thanked Mr. Stasiak and the Staff for the information on this project but he felt that the City needed to be better prepared before going to the citizens.

ADJOURNMENT

There being no further business before the Council, Councilman Browne moved for adjournment. The motion was seconded by Councilman Fiedler. There was no discussion, and the vote was taken as follows:

Councilman Condit moved for the support and approval of certain costs related to the new fire station from the City's portion of the quarter cent excise tax for fire services and city funds. The motion was seconded by Vice-Mayor Garvin.

Before the vote, Chief Stewart reported that the City was eight (8) to ten (10) weeks from completion of the fourth fire station. He then explained that he was requesting \$27,226.00 which was approximately \$13,000.00 less than he thought would have been needed. He added that if this was approved then the City would have contributed 1.3% to this project.

Mayor Priddle commented that of the \$27,000.00, \$17,329.00 was for the generator used to maintain the Emergency Command Center. There was no further discussion, and the vote was taken as follows:

Councilman Mason moved to authorize the Mayor to sign a Rental Agreement for a City owned dwelling located at Talawanda Lake Number 1. The motion was seconded by Councilman Wilkinson.

Before the vote, Mr. Stasiak explained that this is a house owned by the City and was currently vacant. He commented that this was an isolated home and since they had been working on this project there had been an individual in the house watching it and last Thursday, Friday and Saturday nights someone had attempted to break into the house. Mayor Priddle commented that this was for a fifty dollar (\$50.00) lease between now and June 30, 2010. Mr. Stasiak stated that this would be evaluated during that time to decide what the City wanted to do with this property in the future. Councilman Condit explained that he was not related to the individual that would be leasing the property and he assumed he was the new water plant superintendent, Randy Condit. Vice-Mayor Garvin asked if Mr. Condit had contact with the police department. Mr. Stasiak stated that he did have cell phone service and that Mr. Condit would not be chasing any more would be burglars away. Councilman Browne asked if the City had any other rental property at the lake. Mr. Stasiak commented that there was one other house that was currently leased by one of the animal control officers and the difference between the two leases was that with this lease the renter was responsible for any major or minor repairs. There was no other discussion, and the vote was taken as follows:

Attached is the bid you requested for your July Fireworks Display.

Here are a few explanations to what you will be receiving in the way of shells and firing techniques.

Shells are classed in 5 categories,

Color shells: which are bright single colors in red, green, gold, blue, silver, etc. They are usually Chrysanthemums.

Deluxe shells: Consisting of a much bolder color and patterns designs and multi effects, these shells are very close to premium as you can get.

Premium shells: Are the very high quality shell's, consisting in high quality styles and effects, they are the hest in color, burst and patterns.

Premium canister shells: These Premium Canisters are cylinder shells that have multiple burst and long duration, they are high quality Japanese styles effects, they are the best in duration, color, burst and patterns.

Specialty shells: Such as Yung Feng which are known for elaborate colors and very long duration. An example would be the Yung Feng Golden willow with red strobing stars and red strobing pistol, the duration will last almost to the ground, these are the best possible shell's available on the market, consisting in high quality Japanese styles and effects, they are the absolute best in color, burst and patterns.

All shells will be in the Assorted variety so you will be getting the widest variety of colors, patterns, as well as the loud titanium salutes.

Our shows consist of an Opening, Main body of show, and Finale.

Openings are usually loud and attention getters, followed by a main body which is the assortment of multi effect shells then wrapping it up into a long Finale to finish the show.

All shows are electric fired to protect the operators and spectators and provide a more precise show.

If you have any question please call. We are looking forward to working with you.

Thank you Neil Hance

Subject: Request For Title Opinion and Review of Hance Pyrotechnics Contract

Dear Pete:

I reviewed the referenced contract. It is legally sufficient to create the obligations and liabilities on the parties to the agreement.

I would ask for one correction. In paragraph 6 c, Indemnification, the second <u>Purchaser</u> on the second line of that paragraph should be changed to <u>Seller</u>.

The contract is ready for the City Council's consideration.
