DESCRIPTION OF THE PROGRAM/PROJECT AND BACKGROUND INFORMATION:

The City Council approved American Pump and Drilling to replace the pump on Well #4 on the 16th of January 2024 by Resolution No.1312-0124. The pump replacement work was completed by the contractor on the 20th of March 2024. The original quote from American Pump and Drilling was for \$70,532.03. During construction, the contractor realized the project didn't need the check valve that was in the initial quote. Therefore, the final project amount came in at \$67,152.02. With the completion of the project, we ask that the council approve the close-out of this project.

ANALYSIS/OPTIONS/ALTERNATIVES:

During the summer months, the city needs two of the three wells in operation to provide an adequate water supply for the city. It is desirable to always have all three wells ready to operate for system redundancy. The Well 1 to High School Tank project will take Well 1 offline until June and Well 4 needs to be in service with Well 3 for system redundancy to meet the wintertime water demands.

BUDGET/FISCAL INFORMATION:

The pump failure was not anticipated, and budget for the project will be taken from water fund reserves.

PUBLIC INFORMATION REQUIREMENTS:

Any information relevant to this project is available through the Public Works Department.

STAFF RECOMMENDATION/MOTION:

"I move to adopt Resolution No. 1326-0324 as presented."

Council Briefing Form Revised 07/01/2020

RESOLUTION NO. 1326-0324

A RESOLUTION OF THE COUNCIL OF THE CITY OF SHELTON, WASHINGTON ACCEPTING THE WELL 4 PUMP REPLACEMENT PROJECT AS FINAL AND COMPLETE

WHEREAS, the City Council approved a contract for the purchase of a new pump at Well #4 to American Pump and Drilling in the amount of \$70,532.03 on January 16, 2024, as the main pump within Well #4 had failed and needed to be replaced; and

WHEREAS, the project commenced on February 06, 2024, and was completed on March 20, 2024; and

WHEREAS, the final amount paid to the contractor, after taxes and retainage is \$67,152.02, as a backflow valve was deleted and there was a reduction in the quoted price; and
