- Finance Department
 - Finance Report for the month of October 2022 – Presented by Bobbi Johnson, Finance Manager.
 - Overview of financial reports given.
 - Update titles on report for filing.
 - Cari brought up a potential new grant in the works to cover agency costs. Amy Oliver said the grant is about \$308,000 in Covid Relief.
 - Update on ARPA balance. County must have plan in place by 2024, year end and spent down by the end of 2026.
 - Motion to accept Finance Report for the month of October 2022. Motion by Kelli Mitchell, second by Kay Stanek, vote all in favor.
 - Department Update
 - County-wide financial training started this week. The first two trainings were given this week on December 14th and 15th.
 - Overview of training agenda was provided.
 - Mary Henry asked how department heads have received the training and management structure.
 - Amy Kleiber & Monique Hassman gave feedback on the trainings thus far.
 - Mary Henry specifically asked Ben Wojahn on how the training was. Ben stated he would be attending the January training sessions.
 - Continuing to work on policies and procedures.

Policies & Procedures

- Defining the role and responsibilities of the Finance Department
 - How are departments reacting? There has been some resistance in getting information and questions answered. Change is hard and it's expected that there is some resistance. The trainings being new will help departments understand better why things need to be sent to Finance for review and why require certain things for our external audit. Bobbi also discussed the open discussion forum being helpful to all attendees.

- Brought up Internal Services Transfers and how those work to stop cutting checks to ourselves from ourselves.
 - Discussed a review period to ensure everything was done before field work starts with our external auditor.
- Kelli Mitchell brought up some changes needing to be made: Remove City and change to County in the mission statement. Bobbi will update.
- Invoice approval process & procedure review
 - Departments currently have been asked to provide feedback on the Voucher approval process and will provide the feedback from the Department Heads at the next meeting.
- Month End & Year End Requirement Summary
 - Discussed why month end deadlines are important since committees are hearing November numbers from departments vs. what the Finance Committee is receiving today which is October.
 - Finance has been documenting processes and procedures documented to help mitigate the audit findings.
 - Discussed month end and year end requirements to be able to properly process 2022. Briefly discussed the year end processes. Showed the month end and year end deadlines and briefly went over those with the Committee.
- Credit Card Policy – Update
 - Draft will be sent out to Departments to have a review for feedback.
- Employee Reimbursement Policy – Update
 - Working on updating our current employee reimbursement policy and travel reimbursement form to standardize the practice.
- Purchasing Policy – Update
 - Working on a very detailed policy that will rely on the Finance Department’s role and responsibilities for the County. This will help to put the policy in place that will be backed by the department’s authority to request and require information from departments. It will help to mitigate quite a bit of resistance from departments/employees on their willingness to provide information.
- Overall, Policy Updates
 - Bobbi to share with the Finance Committee once the feedback is received on all the policies and procedures.
 - Bobbi discussed on having information gathering items such as department reporting requirements and finding out what systems the county has, why the systems are in place and what benefit if any do these singular systems provide. We also need to know the cost we are spending on maintaining these systems.

- Ben Wojahn provided comments on keeping policies concise and easy to follow. Some of these policies are greatly increasing the workload for some of the financial employees in the departments. Keep in mind how much that workload is changing. It is also the end of the year and it is challenging when changing things at this time.

Long Term Financial Planning & Priority-based Budgeting

- Priority Based Budget discussion.
 - Rod asked Cari to update and see where we are at and find out needs to happen going forward. Cari mentioned that in terms of the Finance department working diligently on trying to mitigate audit findings that the committee needs to identify which needs will take priority over the others. Cari offered to bring quotes to the next meeting to review. The priority needing to be addressing the basic building blocks for payroll, policies and procedures and also from a systems perspective are there ARPA funds available. Bobbi is exploring the requirement needs of departments to look at an overall financial system that would benefit the organization which will take a lot of bandwidth. Rod wants to keep updated on what is out there for options, service providers, cost, timelines, etc. to keep it on the radar to get it done sooner than later.
 - Ben Wojahn brought up UW Extension that has done most of the work on PBB and did it without consulting. Wondering if the Extension office's new position would be good for this. Cari mentioned that the role is an Economic Development role. The role that engages more for the counties. UW Extension has a local arm for government resources, but the County would still need to pay for it since Vernon County does not have this type of arm at UW Extension.
 - Sound Issues with Teams.....Brandon Larson was able to fix the connection issue after a few moments.
- Strategic Plan update
 - Bobbi is working a draft of a strategic plan for the Finance Department.

Discussion of agenda items for next meeting

- Add to long term planning: 2024 Budget Calendar review.
- Add to long term planning: Could look at developing a Capital Improvement Plan. Our audited financials specified our capital outlay amounts at \$5,000 for general capital assets, \$1,000 for Vernon Manor & Vernon Acres, and \$10,000 for infrastructure assets with an estimated useful life more than one year.

- Departments can list out their 3–5-year plan. It would be a good way to see truly what is on the operating budget vs what we are purchasing that are higher dollar value that we would need to potentially borrow for.
- Mary Henry offered positive feedback that cameras should be capital vs operating budget.
- Bobbi brought up it would be good to know our operating impact that happens when buildings put up, land purchases, new equipment. John Pedretti asked about limits. Bobbi mentioned \$5,000 for equipment and \$10,000 for capital improvements/infrastructure.
- A capital plan allows us to manage our long-term debt better and we can plan for the impact rather than as it happens and having to refinance. It gives us time to explore the best option for funding sources.
- Cari recapped on Bobbi's point for capital and debt and brought up the loans that have balloon payments. Managing our debt is a strong part of the strategic planning that needs to be addressed which are not as fun as PBB. We need to even out the property tax levy rather than having one year that is low and then the next few years jumping higher. These are from decisions that would have been made over the last 10 years, not decisions that are coming up now or were recent.
- 2022 Year end standing to know how we are ending the year.
- Set next meeting date (January 19th, 2023, at 9:30)
 - County Board of Supervisors meeting was changed to January 19th, 2023, at 9:30AM,
 - Finance Committee meeting changed to January 17th, 2023, at 9:30AM

Adjournment: Motion for adjournment made by Kelli Mitchell, second by John Pedretti 11:00 AM

Policies & Procedures

- Defining the role and responsibilities of the Finance Department
 - Discussion on if the role and responsibilities of the department would change under an Administrative Coordinator vs. County Administrator.
 - Update mission statement to change “towns” to “County”
 - Essentially, they would be the same under either role
 - Look at examples of departments under an Administrative Coordinator
 - John Pedretti asked for a Strategic Plan to be developed for the Finance Department.
- Month End & Year End deadlines – Skipped
- Credit Card Policy
 - Bobbi gave update that Bi-Weekly meeting with financial staff from Highway, Human Services, Land & Water, Grant Office, Finance Department and Vernon Manor/Vernon Acres are working a draft and will be asking Department Heads for their input after the draft is agreed on. After Department Heads have reviewed and given their feedback, the policy will be brought before the Finance Committee to review and approve.

Memo

Date: August 9, 2022

To: Vernon County Finance Committee: Rod Ofte, Kelli Mitchell, Kyle Semke, Kay Stanek

CC: Cari Redington, County Administrator

From: Bobbi Johnson, Finance Manager

Subject: Proposal for Vendor Approval & Payment Process

The review and approval process for vendor payments was evaluated to propose the following process for invoices to be reviewed and approved to issue timely payments. The process change will establish a foundational basis for the Finance Department to ensure Generally Accepted Accounting Principles (GAAP) and Governmental Accounting Standards Board (GASB) regulations, and internal controls are put in place as invoices are reviewed, approved and processed.

The following definitions should be used in regards to this memo:

- *Policy: A course or principle of action adopted or proposed by an organization or individual.*
- *Process: A series of actions or steps taken in order to achieve a particular end.*
- *Procedure: A procedure is a prescribed way of undertaking a process or part of a process*

Currently, the final operating and capital budgets are adopted in the prior year by the County Board of Supervisors for departments to utilize. Departments are currently required to have additional payment approvals by various committees, in which many County Supervisors are on. The invoices & credit card statements that are provided to the committees for approval have already been fulfilled by the vendor, with either goods or services already received or rendered respectfully.

In addition, the Finance Department is processing vendor payments weekly without a full Committee review or approval; payments are approved by either Department Head or Committee Chair. Once a month the Finance department processes 2 (two) check runs during the week of the Finance Committee meeting, with the largest check run being for the Finance Committee date. The current process utilizes a lot of time and resources to perform by both, County Supervisors and employees of the County. Vendor services and products have become limited due to the length of time it takes for payments to be received.

Over the last few weeks I have reached out to several financial colleagues in other Wisconsin counties to find streamlined processes that are being used for the review and approval of vendor payments. There are a variety of processes being used throughout Wisconsin, based on the needs of the Departments, County ordinances, policies, and procedures put in place by the Finance Department.

In summary, based on our needs and goals to have a streamlined approval process with proper internal controls and procedures in place, I am proposing the following process change:

- Department heads will be able to use the adopted annual operating budget as intended, without the need for committee approval in regards to daily operational needs.

- Any purchases over and above \$25,000, capital project requests, or service contracts will follow the Vernon County Ordinances as detailed in [Chapter 2, Article III. – Finance, Sections 2-61 to 2-65 \(attached Appendix A\)](#).
- Purchases from specific special assigned, capital, agency or internal service funds will be closely monitored by Finance to ensure no overuse of funds or inappropriate transactions occur. Ex. Fund 88 Ho-Chunk Funds
- Departments will continue to use the voucher cover sheet and the appropriate account code.
 - Each vendor will have one voucher cover sheet.
 - The invoice number, statement or account number must be listed on the voucher.
 - If there are no identifying invoice numbers present the invoice number will consist of the following format. (Ex. VendornameMMDDYY).
 - Once the voucher sheet(s) are completed, all supporting documents will be attached and either scanned to the Finance Department email, or dropped off.
- The Finance Department will review each purchase before entering them into the financial system.
 - The review process will include verifying the proper account codes, available budget for purchases over \$25,000, invoice/statement dates, dollar amounts, late fees, vendor discount terms if applicable, remit addresses and other necessary supporting documents as applicable.
 - Documents to be included should consist of but not be limited to: invoice(s), all receipt(s) for credit card statements, resolutions, summary of RFP/RFQ bid results, copies of signed purchasing agreement or contract, grant award documents, and the amortization schedule for loans, bonds, notes and leases.
 - Finance may reject any voucher that is incorrect based on the above listing of review items until the correction(s) have been properly made.
 - After the financial review has been completed, Finance will determine if the voucher(s) will be paid that week, or if additional information and/or action is needed.
 - Action may be from any of the following: Department(s), County Finance Director, County Administrator, County Finance Committee or County Board of Supervisors.
 - Finance will enter the vouchers and process payments weekly to avoid any unnecessary late fees. Continued evaluation of the weekly process will assist with the creation of a procedure to take advantage of vendor discount terms when applicable.
 - Finance will provide an annual schedule of voucher due dates and times to departments; that will be subject to change due to Holidays, system updates or staffing requirements.
- Finance will provide a monthly disbursement report to the Finance Committee and County Board of Supervisors, listing the vendor name(s), invoice numbers and payment amounts that have been issued within the last month.
- Should the need for reallocation of funding or budget be identified, Finance with the assistance of the department(s), will identify an excess source of funding or budget and compile a budget amendment resolution.
 - The resolution will be presented to the Finance Committee for consideration.
 - Final consideration on the budget amendment will be from the County Board of Supervisors.
 - The approved budget amendment will then be processed in the Finance department and filed with all applicable supporting documents and signatures.

This process change will be the first foundational step in the creation of a County-wide purchasing and procurement policy. The Finance Committee will be provided a draft of the policy for consideration. Once the policy has been approved, the Finance Director and County Administrator will evaluate the policy as needed, and recommend any necessary changes to the Finance Committee for consideration. Process or procedure changes will be announced to the Departments as needed.

Editor's note— Ord. No. 2016-1, § I, adopted April 19, 2016, amended § 2-61, to read as set out herein. Previously § 2-61 was titled "Bids required for public work and purchases exceeding \$5,000.00."

Sec. 2-62. - Exceptions.

The county board may, by three-fourths vote of all members entitled to a seat, provide that any class of public work, or part thereof, may be done directly by the county without submitting the work for bids. This section does not apply to highway contracts which the county highway committee is authorized by law to let or make. Further, the provisions of this section are not mandatory for the repair or reconstruction of public facilities when danger, or threatened danger, thereto creates an emergency, as determined by resolution of the county board by a three-fourths vote of the members present, in which the public health or welfare of the county is endangered. Whenever the county board by majority vote at a regular or special meeting determines that an emergency no longer exists, such exception shall no longer apply.

(Ord. No. 1-1978, § 2, 8-15-1978)

Sec. 2-63. - Bids required for purchases exceeding \$25,000.00.

All purchases made by the county where the estimated cost of such contract exceeds \$25,000.00 shall be let by sealed competitive bids and the contract shall be awarded to the bidder whose bid is determined by the relevant committee or the county board to be the most advantageous to the county.

(Ord. No. 2016-1, § I, 4-19-2016)

Sec. 2-64. - Service contract approval.

All service contracts entered into by a non-elective county department or agency shall be approved by the committee that governs the department or agency.

(Ord. No. 2016-1, § I, 4-19-2016)

Sec. 2-65. - Property assessed clean energy financing.

- (a) *Purpose.* The county finds that renovations or additions to premises located in the county made to improve energy efficiency, improve water efficiency, and/or use renewable resource applications, increase property values, stimulate local economic activity, provide local and global environmental benefits, and promote the general welfare of county residents.  - d. Shall provide whether default interest may be applied to unpaid annual installments;
 - e. Shall require the PACE lender and the borrower to comply with all federal, state and local lending and disclosure requirements;
 - f. Shall provide for any fees payable to the county and/or program administrator;
 - g. Shall recite that the supplemental agreement is a covenant that runs with the land;
 - h. May provide for prepayments of annual installments by the borrower with a resulting reduction in the special charge for the prepayment, subject to any prepayment premium charged by the PACE lender, if any; and
 - i. May allow for amendment by the parties.
- (2) Prior to executing the supplemental agreement, the owner of the subject property, if different from the borrower, and any existing mortgage holder(s) on the subject property must have

executed a separate writing acknowledging the borrower's use of PACE financing for the subject property and the special charge that will be imposed under this section and its consequences, including the remedies for collecting the special charge.

(3) Each PACE loan shall be amortized over the term of the PACE loan as provided in the supplemental agreement.

(4) The annual payments of a PACE loan may be payable in installments as authorized by Wis. Stats. § 66.0627, as amended.

(h) *Annual installments added to tax rolls.* Upon the request of the program administrator the county shall place each year's annual installment on the tax roll for the subject property as permitted pursuant to Wis. Stats. § 66.0627, as amended.

(i) *Remittance of special charges.* The county shall promptly remit to the Wisconsin PACE commission any payment(s) for a special charge imposed under this section, including penalties and charges thereon, it may receive from any taxing district or the county treasurer pursuant to Wis. Stats. Ch. 74, as amended.

(j) *Property tax foreclosure procedures.*

(1) The county elects to utilize the provisions of Wis. Stats. § 75.521, as amended, for the purpose of enforcing tax liens if a subject property owner fails to pay any special charges imposed on the subject property under this section as required.

(2) The county shall begin an *in rem* property tax foreclosure proceeding on the subject property at the earliest time allowed under Wisconsin Statutes, unless the county determines that subject property is a "brownfield" (as defined as Wis. Stats. § 75.106, as amended) or that *in rem* property tax foreclosure is not in the best interests of the county due to the condition of the property or for other reasons.

(3) If the county has determined that it will not commence an *in rem* property tax foreclosure proceeding, then the PACE lender may request that the county, pursuant to Wis. Stats. § 75.106, as amended, assign the county's right to take judgment against the subject property, provided that the PACE lender and the county fully comply with all provisions of Wis. Stats. § 75.106, as amended, concerning the subject property and the PACE lender agrees to pay the amounts required by Wis. Stats. § 75.36(3)(a)1 and 1m, as amended.

(k) *Sale of foreclosed property.* If the county prevails in an *in rem* property tax foreclosure action against a subject property, the county shall diligently proceed to sell the subject property pursuant to the procedures set forth in Wis. Stats. § 75.69, as amended.

(l) *Distribution of foreclosure proceeds.* The county treasurer shall follow the procedures set forth in Wis. Stats. § 75.36, as amended, to distribute the proceeds from the sale of a subject property.
